& People Centricity. **”**

~VISION~

To be recognized internationally as the premier financial institution through advanced technology, strategic alliances and superior products and services.

~MISSION~

To be an efficient, profitable and growth-oriented financial institution, promoting social and economic development in the national and regional community by providing high quality financial services and products at competitive prices.

~CUSTOMER CHARTER~

- To keep the Bank a customer friendly institution.
- To treat customers as an integral part of the Bank and serve them with the highest levels of integrity, fairness and goodwill.
- To provide customers with the products and services they need, in the form and variety they demand them, at the time they require them, and at prices they can afford.
- To give our customers good value for the prices they pay.

~POLICY STATEMENT~

- To mobilize domestic and foreign financial resources and allocate them to efficient productive uses to gain the highest levels of economic development and social benefits.
- To promote and encourage the development of entrepreneurship for the profitable employment of available resources.
- To exercise sound judgment, due diligence, professional expertise and moral excellence in managing our corporate business and advising our customers and clients.
- To maintain the highest standard of confidentiality, integrity, fairness and goodwill in all dealings with customers, clients and the general public.
- To create a harmonious and stimulating work environment in which our employees can experience career fulfillment, job satisfaction and personal accomplishment; to provide job security; to pay fair and adequate compensation based on performance, and to recognize and reward individual achievements.
- To promote initiative, dynamism and a keen sense of responsibility in our Managers; to hold them accountable personally for achieving performance targets and to require of them sustained loyalty and integrity.
- To provide our shareholders with a satisfactory return on their capital and thus preserve and increase the value of their investment.
- To be an exemplary corporate citizen providing managerial, organizational and ethical leadership to the business community.

The policies set out above inform and inspire our customer relationships, staff interactions and public communication; guide our corporate decision making process; influence the manner in which we perform our daily tasks and direct our recruitment, organizational, operational and development policies, plans and programmes.

Our Directors, Management and Staff are unreservedly committed to the observance of the duties and responsibilities stated above for the fulfillment of our Mission.

Notice Of Meeting

Notice is hereby given that the **FIFTY-SECOND ANNUAL GENERAL MEETING OF ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED** will be held at the St. Kitts Marriott Beach Resort, Frigate Bay on Wednesday 28th December 2022 at 5:00 p.m. for the following purposes: -

1. To read and confirm the Minutes of the Meeting held on 16th December 2021.
2. To consider matters arising from the Minutes.
3. To receive the Directors' Report.
4. To receive the Auditor's Report.
5. To receive and consider the Accounts for the year ended 30th June 2022.
6. To elect Directors.
7. To reconfirm the appointment of Auditors for year ending 30th June 2023 and to authorize the Directors to fix the remuneration of the Auditors.
8. To discuss any other business for which notice in writing is delivered to the Company's Secretary three (3) clear banking days prior to the meeting.

By Order of the Board

Stephen O. A. Hector
Corporate Secretary

PROXY

A member of the Company who is entitled to attend and vote at this meeting is entitled to appoint a proxy to vote in his/her stead. No person shall be appointed a proxy who is not entitled to vote at the meeting for which the proxy is given. The proxy form must be delivered to the Company's Secretary not less than 24 hours before the meeting.

ARTICLES GOVERNING MEETINGS

ARTICLE 42

At any meeting, unless a poll is demanded as hereinafter provided, every resolution shall be decided by a majority of the Shareholders or their proxies present and voting, either by show of hands or by secret ballot, and in case there shall be an equality of votes, the Chairman of such meeting shall have a casting vote in addition to the vote to which he may be entitled as a member.

ARTICLE 43

If at any meeting a poll is demanded by ten members present in person or by proxy and entitled to vote, the poll shall be taken in every such manner as the Chairman shall direct: and in such case every member present at the taking of the poll, either personally or by proxy, shall have a number of votes, to which he may be entitled as hereinafter provided: and in case at any such poll there shall be an equality of votes, the Chairman of the meeting at which such poll shall be taken shall be entitled to a casting vote in addition to any votes to which he may be entitled as a member and proxy.

ARTICLE 45

Every member shall on a poll have one vote for every dollar of the capital in the Company held by him.

ARTICLE 56

At every ordinary meeting one-third of the Directors shall retire from office. If the number of Directors be not divisible by three, then the nearest to one-third of the number of Directors shall retire from office. The Directors to retire shall be those who have been longest in office since their last election. As between Directors of equal seniority in office, the Directors to retire shall be elected from amongst them by lot. A retiring Director shall be immediately, or at any future time, if still qualified, eligible for re-election.

ARTICLE 59

No one (other than a retiring Director) shall be eligible to be a Director, unless notice in writing that he is a candidate for such office shall have been given to the Company by two other members of the Company at least seven days before the day of holding the meeting at which election is to take place.

Chairperson's Report to Shareholders

PEOPLE CENTRED; FUTURE FOCUSED

For over a half a century, St. Kitts-Nevis-Anguilla National Bank Limited (National), has had stellar growth. From humble beginnings, it has become the largest bank in the Eastern Caribbean Currency Union. The elevation of the Bank to such a position was not possible without the foresight of its founders and the continued dedicated support of shareholders, customers and past and present employees. Even as we celebrate its many successes, we must determine to use lessons learned to overcome the obstacles that lie ahead and ensure that the future generates much more to be proud of. No surprise then that our Annual General Meeting is being held under the theme, "People Centred; Future Focused."

Our immediate past has been fraught with many challenges, primary among them Covid-19, which for almost three years has wreaked havoc on the economies of the world, and which even now continues to lurk, with ever-emerging variants. The effects are all too well-known amongst us - labour shortages, disruption to production and the supply chain, contracting world economies, inflation and the threat of recession. The Russia-Ukraine war has further exacerbated these conditions. The combined effect of these situations has created a hazardous road for National to navigate.

Despite these exogenous shocks, National continues to be a pillar within the Federation and the Region. Our customer deposits of \$2.8 Billion have rebounded to the 2019 pre-pandemic level. Deposits improved by 12% and 9% over 2020 and

"

Deposits improved by 12% and 9% over 2020 and 2021, respectively. Our lending has continued to show resilience and our gross loans stand at just over \$1 billion. This achievement reflects a 15% and 11% growth over 2021, and 2020, respectively.

"

Carol I. Boddie
Chairperson of The Board of Directors

2021, respectively. Our lending has continued to show resilience and our gross loans stand at just over \$1 billion. This achievement reflects a 15% and 11% growth over 2021 and 2020, respectively.

Our investment portfolio, which over the years had significantly contributed to our profitability and overall asset growth, and which in 2021 recorded a 30% increase over 2020, was adversely impacted by the previously mentioned global events. These events contributed in large measure to the precipitous decline in the value of global stocks. Despite the fact that our investment portfolio out-performed the market, our investments reflected an unrealized loss, contributing to our current deficit position. Notwithstanding the loss, the overall value of the investment portfolio stands at \$1.3 billion in 2022, compared to \$1.2 billion in 2019 (pre-pandemic).

In response we have already begun the process of mitigating against the type of loss we experienced this year by re-balancing the portfolio through investing in fixed income instruments. This will yield a more sustainable return with much lower risk under current market conditions, albeit at a lower rate of return than we experienced in prior years.

FUTURE FOCUSED

The many lessons learnt from our recent experiences have reinforced the need to focus on that which our Vision Statement promotes, "advanced technology, strategic alliances, and superior products and services." In October a new Board of Directors was elected, and immediately immersed itself into ensuring that the Bank fulfills its mission.

Chairperson's Report to Shareholders ...continued

Our aim is to transform the mindset, enthusiasm and behaviour not only of staff, but also our customers and the public, providing the continued assurance that their trust and confidence are well reposed in National. We have already begun the transformation process with the reconfiguration of the main branch that has significantly reduced the wait time in line. There are also plans for making the bank fully accessible to persons with disabilities in short order.

Progress cannot be achieved without innovation and improved technology. In this regard, members of the Senior Executive Team have met and continue to meet with our international partners, correspondent banks and service providers. The advancement of these strategic alliances is critical to our future which will be more technologically driven. There is the need to re-design processes, strengthen controls and manage our risks, while ensuring compliance within the regulatory framework. A greater use of digitization and a reduction in manual processes will lead to improved efficiency, productivity, transparency and control. The Bank continues to invest in upgrading its technology capability. Plans are underway to upgrade the Bank's core banking platform to enable seamless integration of digital applications that work across various channels. However, such transformation will require significant investment of resources and time. Many of our internal processes are being re-evaluated with a view to bringing about improvements that would not only benefit our customers but will also assist our staff with work life balance by creating more opportunities for the completion of daily functions within a normal work day. Non-performing Loans continue to be a major area of concern. We have ratcheted up our efforts to recover loans in our non-performing loans portfolio. We are optimistic that those efforts will yield positive results. Notwithstanding the fact that most of these loans are backed by adequate security, it is imperative that every

effort be employed to reduce the risks posed by these loans.

Over the past five years, our Auditors have issued a qualified opinion due to the unresolved issue of ABI Bank. This year, however, the auditors issued an unqualified opinion as a result of the Bank's decision to write off this long term note. Notwithstanding the write-off, the Bank will spare no effort to recover the funds that were placed with ABI Bank to assist it in its time of need. The matter is making its way through the courts and we are confident of a positive outcome.

Outlook

The Bank continues to operate in a challenging business environment and this makes the role of the Board even more critical in guiding the management of the Bank to ensure that the strategic goals and objectives are achieved. In executing this important role, the Board will endeavour to continuously focus on the Bank's strategic priorities to ensure the realization of our purpose for the ultimate benefit of shareholders and other stakeholders. Given our people resources and our laser-sharp focus on the task at hand, we are confident of the future.

Looking ahead, we will be increasing our focus on the customer experience, digitization, technology, internal processes, and working to reduce the inefficiencies. This will significantly improve the Bank's profitability. I am pleased with the progress we have made within a relatively short time frame and look to the future with great anticipation of the tremendous strides that we can make.

Carol I. Boddie
Chairperson

Corporate Governance

BOARD RESPONSIBILITIES

The Board's key responsibilities are to provide strategic guidance for the Group and effective monitoring and oversight of the management's performance and implementation of the Group's strategic objectives. The Board has the ultimate responsibility and accountability regarding risk management, governance and internal controls within the Group. The Board acts in the best interests of the Group and its stakeholders, guided by a philosophy based on transparency, accountability and responsibility. The Group's values and standards are established to ensure that its obligations to its shareholders, employees, and customers are met.

The Board has in place several Committees that consider key matters of the Group, under the guidance of clearly documented Charters. These committees are the Audit Committee, Budget Committee, Risk and Compliance Committee, Corporate Governance Committee, Credit Committee, Human Resource Committee, Information Technology Committee, Investment Committee and Property Management/Space Committee. The Charters for each Committee have been approved by the Board of Directors and are reviewed and revised, as prescribed, by the respective Committee and ratified by the Board of Directors.

BOARD SIZE AND COMPOSITION

The Articles of Associations mandates a Board size for effective decision-making of between five to ten directors for the Bank, four to ten for National Caribbean Insurance Company (NCIC), and four to fifteen for the National Bank Trust Company. Board size and composition are reviewed annually based on changes in legal requirements, best practices, the skills and experiences required to enhance the Board's effectiveness and the number of directors needed to discharge the duties of the Board and its sub-committees effectively.

The Board of the St. Kitts-Nevis-Anguilla National Bank was comprised of ten (10) members who were elected and appointed by the holders of ordinary shares. In August 2022, eight (8) members of the Board for the Bank resigned and were replaced by eight (8) elected members at an extraordinary meeting held October 18, 2022.

The Board of NCIC is comprised of seven (7) members. Mrs. Patrice Afortu-Ofre joined in June 2021 to replace

Mr. Ian Ferguson who had resigned in May 2021.

The Board of National Bank Trust Company is comprised of five (5) members; of which one member, Ms. Shirley Julius resigned effective 31 July 2020 and she has not been replaced.

*These eight (8) Directors resigned in August 2022.

** Director Hunkins resigned in August 2022 but was reappointed to the Board of Directors in October 2022.

INDEPENDENCE

The Board believes that director independence is very important. A Director is considered independent only where the Board determines that the director has no material relationship with the National Bank Group of Companies. A material relationship is a relationship which could be reasonably expected to interfere with the exercise of an independent director's judgment.

All Directors must take decisions objectively in the best interest of the Group. The Board has established clear delineation of responsibilities between the operation of the Board and the executive responsible for the day to day running of the Group. No one individual has unrestricted powers of decision making. The roles of Chairperson and Chief Executive Officer cannot be exercised by the same individual and no individual or group of individuals dominates the decision-making process.

CONFLICTS OF INTEREST

All Directors of the Company and its subsidiaries must avoid any situation which might give rise to a conflict between their personal interests and those of the Group. Prior to appointment, potential conflicts of interest are disclosed and assessed to ensure that there are no matters which would prevent that person from taking on the role. Directors are responsible for notifying the Chairperson and Company Secretary as soon as they become aware of actual or potential conflicting situations.

If directors or executive officers have an interest in a material transaction or agreement with the National Group that is being considered by the Board or a Board committee, they:

1. disclose that interest;
2. leave the meeting during Board or committee discussion; and
3. do not vote on the matter.

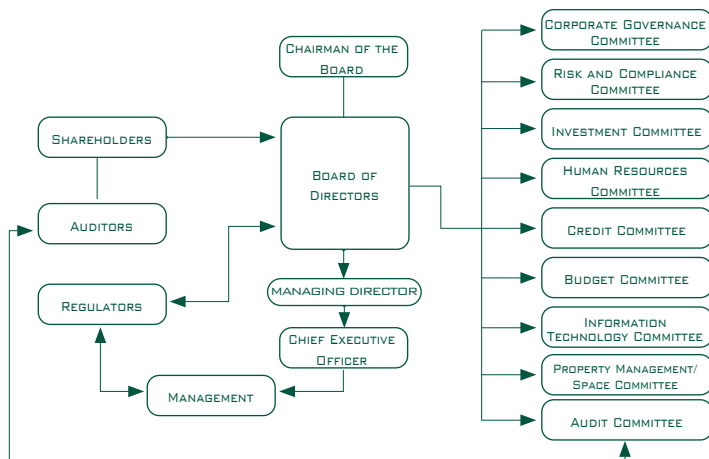

THE DEVELOPMENT OF DIRECTORS' KNOWLEDGE, EXPERIENCE AND SKILLS

During the financial period, Directors participated in a few local seminars aimed at maintaining and developing the knowledge, experience and skills needed in the performance of their duties and responsibilities. The Board attended seminars that explored the emerging risks within the industries' that affects the Group.

- Anti-Money Laundering/Counter Financing of Terrorism and Proliferation Financing Compliance Training
- Information Security Awareness Training – Cybersecurity Governance

COMMUNICATION

Management provides reporting to the Board of Directors allowing them to carry out their roles and responsibilities effectively. Additionally, information may be requested by the Directors and the diagram below provides an overview of how the Board interacts with the various stakeholder groups.

ATTENDANCE AT BOARD MEETINGS

SKNANB Board Meeting Attendance Report for year ended 30 June 2022

The attendance at Board meetings is shown in the table below.

Director	No. of Meetings Attended	Meeting Attendance	
		Number	Rate (%)
Mr. Alexis Nisbett	22 of 25	22	88
Dr. Analdo Bailey	22 of 25	22	88
Mr. Franklin Maitland	21 of 25	21	84

St Kitts and Nevis Mortgage and Investment Company Limited

The Board of Directors of the St. Kitts-Nevis-Anguilla National Bank Ltd functions as the Board of Directors for the St. Kitts and Nevis Mortgage and Investment Company Ltd (MICO). However, the St. Kitts-Nevis-Anguilla National Bank Trust Company Ltd assumed responsibility for those operations previously conducted by the company effective March 1, 2017.

Directors' Rotation

At every ordinary general meeting one-third of the Directors shall retire from office. If the number of Directors be not divisible by three, then the nearest to one-third of the number of Directors shall retire from office. The retiring Directors shall be those who have been in office longest since being last elected. Where Directors are of equal seniority in office, the Directors to retire shall be selected from amongst them by lot. A retiring Director shall be immediately, or at any future time, if still qualified, eligible for re-election.

Directors' Remuneration

Directors' fees are included in the Note 26 "Other Expenses". (Nov 25 – Note 27 Other expenses – DR)

Directors' Shareholdings

Election

Unless it be resolved to reduce the number of Directors, the ordinary general meeting at which Directors retire shall elect a successor to each retiring Director. A retiring Director shall remain in office until the close of the meeting notwithstanding the election of his successor. At an extraordinary General Meeting held on October 18, 2022, eight (8) members of the Board were elected to replace eight (8) members that had resigned in August 2022.

Retiring Directors to continue if no others elected

If at any meeting where there is no one elected to replace a retiring Director, the retiring Director shall continue to be a Director as though he/she had been re-elected at such meeting.

Notice of Candidates

No one (other than a retiring Director) shall be eligible to be a Director, unless notice in writing that he/she is a candidate for such office shall have been given to the Company by two other members of the Company at least seven days before the day of holding the meeting at which the election is to take place.

Resignation

A Director may at any time give one month's notice in writing to the Company of his/her desire to resign, and at the expiration of such notice his/her office shall be vacated.

The role of the Board Committees

In an effort to effectively allocate tasks and responsibilities at the Board level, the Board had established nine (9) standing committees for the Bank and three (3) for the NCIC. Effective November 2022, the Board of the Bank restructured to seven (7) committees.

The Boards are supported by its sub-committees which make recommendations to the Board on matters delegated to them, particularly in relation to internal control, risk, financial reporting, governance and employee matters. This enables the Board to spend a greater proportion of its time on strategic, forward looking agenda items. Each Committee is chaired by an experienced Chairman.

St. Kitts-Nevis-Anguilla National Bank Ltd Board Committees

The Board of the St. Kitts-Nevis-Anguilla National Bank Limited is supported by the following committees which make recommendations to the Board on matters delegated to them.

Audit Committee

The Audit Committee is responsible for reviewing the integrity of the financial statements of the National Bank Group of Companies. The Committee provides structured and systematic oversight on the internal controls over financial reporting as well as monitoring compliance with legal and regulatory requirements. The Audit Committee is responsible for selecting external auditors for shareholder approval, reviewing the qualifications, independence, and performance of the external auditors, reviewing the qualifications, independence and performance of the internal auditors, monitoring the internal audit function and other providers of assurance.

The Audit Committee reviews significant accounting and reporting issues; including critical accounting estimates and judgments used in applying accounting principles as well as the treatment of complex or unusual transactions to understand their impact on the financial statements.

The members of the Committee were as follows:

Mr. Franklin Maitland – *CHAIRMAN*

Ms. Talibah Byron

Dr. Analdo Bailey

Ms. Lorna Hunkins

Ms. Derry-Anne Reid – *RECORDER*

Effective November 2022, the new members of the Committee are as follows:

Ms. Lorna Hunkins – *CHAIRPERSON*

Mrs. Carol I. Boddie

Mr. Terrence Crossman

Ms. Azuree Liburd

Budget Committee

The Budget Committee is responsible for reviewing the strategy and goals, and monitor progress toward these goals, provide oversight of the company's budget and financial performance reports, review the company's annual planning and budgeting prior to consideration by the Board of Directors.

The members of the committee were as follows:

Mr. Alexis Nisbett – *CHAIRMAN*

Mr. Franklin Maitland

Mrs. Elreter Simpson-Browne

Dr. Cardell Rawlins

Mr. Anthony Galloway – *RECORDER*

Mr. Donald Thompson – *EX OFFICIO*

Effective November 2022, the Budget Committee was restructured under a newly established Finance Committee charged with oversight of all major corporate financial issues including but not limited to budgets.

Risk and Compliance Committee

The Risk and Compliance Committee ensures that the Group has an appropriate program in place to identify and effectively mitigate compliance risk. The Committee reviews and monitors the compliance activities and the effectiveness of the compliance program for the Group entities. The Committee ensures that Senior Management is taking the appropriate measures to satisfy all of the regulatory requirements applicable to the Group and monitor compliance with regulatory, prudential, legal and ethical standards.

The members of the committee were as follows:

Ms. Talibah Byron – *CHAIRPERSON*
 Mr. Lionel Benjamin
 Mr. Alexis Nisbett
 Mrs. Elreter Simpson-Browne
 Ms. Lorna Hunkins
 Mrs. Jacqueline Hewlett – *RECORDER*

Effective November 2022, the members of the Committee are as follows:

Mr. Glenville Rogers – *CHAIRMAN*
 Ms. Azuree Liburd
 Mr. Hollis Prentice
 Mr. Terrence Crossman
 Mrs. Carol I. Boddie

Corporate Governance Committee

The Corporate Governance Committee's major responsibilities are to provide oversight of corporate governance matters, make recommendation on Board and Committee structure and composition, make recommendations on nomination, resignation and removal of Directors and establishing an annual performance assessment of Directors.

The members of the committee were as follows:

Mr. Franklin Maitland – *CHAIRMAN*
 Dr. Cardell Rawlins
 Mr. William Liburd
 Dr. Analdo Bailey
 Mr. Anthony Galloway – *RECORDER*
 Mr. Donald Thompson – *EX OFFICIO*

Effective November 2022, the Board of the Bank no longer has a Corporate Governance Committee as these responsibilities will be addressed through the Audit and Risk & Compliance Committees.

Credit Committee/Nonperforming Facilities

The Credit Committee/ Nonperforming Facilities is charged with oversight of Credit Risk Management. The Committee is responsible for reviewing credit applications and, monitoring and reviewing nonperforming facilities. The Committee also reviews applications and approved loans to ensure that they are in compliance with the lending regulations and the Group's lending policy. The Credit Committee reviews all special lending products and makes appropriate recommendations to the Board of Directors. The Credit Committee also reviews all loan requests when special considerations are necessary.

The members of the committee were as follows:

Mr. Alexis Nisbett – *CHAIRMAN*
 Dr. Analdo Bailey
 Mr. Franklin Maitland
 Mr. Lionel Benjamin
 Ms. Talibah Byron
 Mrs. Elreter Simpson-Browne
 Dr. Cardell Rawlins
 Mr. William Liburd
 Mr. Wallis Wilkin
 Ms. Lorna Hunkins
 Mr. Stephen Hector – *SECRETARY*
 Mr. Donald Thompson – *EX OFFICIO*

Effective November 2022, the members of the Committee are as follows:

Mrs. Carol I. Boddie – *CHAIRPERSON*
 Ms. Lorna Hunkins
 Mr. Terrence Crossman
 Mr. Glenville Rogers

Human Resources Committee

The Committee is responsible for assisting the Board in fulfilling its governance and supervisory responsibilities for strategic oversight of the Group's human capital, including organization effectiveness, succession planning and compensation, review of the Code of Conduct, and their alignment with the Group's strategy of consistent, sustainable performance, its risk appetite and control framework.

The members of the committee were as follows:

Mrs. Elreter Simpson-Browne – *CHAIRPERSON*
 Mr. Lionel Benjamin
 Mr. Alexis Nisbett

Ms. Talibah Byron
 Mrs. Pansyna Bailey – *RECORDER*
 Mr. Donald Thompson – *EX OFFICIO*

Human Resources Committee

Effective November 2022, the members of the Committee are as follows:

Mr. Terrence Crossman – *CHAIRMAN*
 Ms. Azuree Liburd
 Ms. Ophelia Blanchard
 Mr. Hollis Prentice
 Mr. Glenville Rogers

Information Technology Committee

The Information Technology Committee is responsible for improving the effectiveness of the information technology governance of the Board of Directors. The Committee provides governance and supervisory oversight with the Investment, Risk and Security of the National Bank Group regarding change initiatives, information technology and security effectiveness. The Committee ensures their alignment with the strategy of consistent, sustainable performance, as well as control matters.

The members of the committee were as follows:

Dr. Analdo Bailey – *CHAIRMAN*
 Mr. Wallis Wilkin
 Mrs. Elreter Simpson-Browne
 Ms. Lorna Hunkins
 Mr. Quincy Prentice – *RECORDER*
 Mr. Donald Thompson – *EX OFFICIO*

Effective November 2022, the members of the Committee are as follows:

Ms. Ophelia Blanchard – *CHAIRPERSON*
 Ms. Lorna Hunkins
 Mr. Terrence Crossman
 Mr. Ronald Powell
 Mrs. Carol I. Boddie

Investment Committee

The Committee shall draw up and regularly review Investment Guidelines and recommend Investment Policy amendments to the Board, regularly monitor the investments of the Group to ensure that they are consistent with the Investment Policy and report to the Board, regularly review the performance of both the investment port-

folio and external fund managers against agreed benchmarks and report the findings to the Board.

The members of the committee were as follows:

Dr. Analdo Bailey – *CHAIRMAN*
 Mr. Wallis Wilkin
 Ms. Talibah Byron
 Dr. Cardell Rawlins
 Mrs. Elreter Simpson-Browne
 Mr. Anthony Galloway – *RECORDER*
 Mr. Donald Thompson – *EX OFFICIO*

Effective November 2022, the Investment Committee was restructured under a newly established Finance Committee charged with oversight of all major Corporate Financial issues including but not limited to Investments, Budgets and Financial Regulatory requirements. The composition of the newly established Finance Committee is as follows:

Mr. Terrence Crossman- *CHAIRMAN*
 Mr. Glenville Rogers
 Mr. Ronald Powell
 Mrs. Carol I. Boddie

Property Management/Space Committee

The Property Management/Space Committee works closely with the facilities management team to provide safe and comfortable environment for employees and customers through space planning construction and renovation projects.

The members of the committee were as follows:

Mr. Wallis Wilkin – *CHAIRMAN*
 Mr. William Liburd
 Mr. Lionel Benjamin
 Ms. Lorna Hunkins
 Mrs. June O'Brien – *RECORDER*
 Mr. Donald Thompson – *EX OFFICIO*

Effective November 2022, the Committee was renamed Facilities Committee and the members are as follows:

Mr. Glenville Rogers – *CHAIRMAN*
 Mr. Hollis Prentice
 Ms. Ophelia Blanchard
 Mr. Ronald Powell
 Ms. Azuree Liburd

National Caribbean Insurance Company Limited (NCIC) Board Committees

The Board of the National Caribbean Insurance Company Limited (NCIC) is supported by the following committees which make recommendations to the Board on matters delegated to them. In August 2022, Chairman of the Board of NCIC Directors, Mr. Howard Richardson, resigned and has not yet been replaced.

Audit Committee

The Audit Committee of NCIC has the same responsibility as the Audit Committee of the Bank as outlined earlier.

The members of the Committee are as follows:

Mrs. Patrice Afortu-Ofre – *CHAIRPERSON*

Ms. Joycelyn Mitcham

Ms. Jacynth Francis

Mrs. A.J. Patricia Wilkinson

Ms. Derry-Anne Reid – *EX OFFICIO*

* Mrs. Patrice Afortu-Ofre appointed November 01, 2021 as Chairman of the Audit Committee, replaces Mr. Ian Ferguson who had resigned May 31, 2021.

Compliance Committee

The Compliance Committee of NCIC has the same responsibility as the Risk and Compliance Committee of the Bank as outlined earlier.

The members of the committee are as follows:

Mrs. Jenifer Howell – *CHAIRPERSON*

Mr. Howard Richardson

Ms. Sonia Henry

Ms. Joycelyn Mitcham

Mrs. Patricia Herbert – *RECORDER*

Mrs. Jacqueline Hewlett – *EX OFFICIO*

Investment Committee

The Investment Committee of NCIC has the same responsibility as outlined above for the Investment and Budget Committees.

The members of the committee are as follows:

Mr. Howard Richardson – *CHAIRMAN*

Mrs. Jenifer Howell

Mr. Cedric L. K. Jeffers

Mr. Clive Collins

Ms. Sherlene Johnson – *RECORDER*

Internal Audit Function Oversight

The third line of defense is the Internal Audit Function, which is charged with the objective of ensuring that group companies have implemented controls, policies and procedures geared to the achievement of their strategic objectives while mitigating risks. The mission of the Internal Audit Function is to enhance and protect organizational value by providing risk-based and objective assurance, advice, and insight. The Internal Audit Function helps the Group accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of governance, risk management, and control processes.

The Internal Audit Function reports directly to the Audit Committees within the group. On a quarterly basis, the Internal Audit Function will report to the Audit Committee on matters relating to staffing, training, engagements and investigations.

Organization Placement

The Chief Internal Auditor is responsible for the independent functioning of the Internal Audit Unit, reports functionally to the Audit Committee and administratively to the Chief Executive Officer. The Chief Internal Auditor has unencumbered access to the Audit Committee and may freely discuss audit policies, audit findings, and recommendations, audit follow-up, guidance issues and other matters.

Professional Standards

The Internal Audit Unit follows the professional standards of relevant professional organizations including:

- i. Code of Ethics of the Institute of Internal Auditors; and
- ii. The International Standards for the Professional Practice of Internal Auditing.

Independence and Objectivity

The Chief Internal Auditor will ensure that the Internal Audit Function remains free from all conditions that threaten or interfere with the ability of the Internal Auditors to carry out their duties and responsibilities in an unbiased manner, including matters of audit selection, scope, procedures, frequency, timing and report content. To emphasize the Internal Audit Unit's independence, the Unit is restricted from implementing internal controls, developing procedures, installing systems, preparing records, or engaging in any other activity that may impair the internal auditor's judgment.

The Chief Internal Auditor will confirm to the Audit Committee, at least annually, the organizational independence of the Internal Audit Function. The Chief Internal Auditor will disclose to the Audit Committee any interference and related implications in determining the scope

of the Internal Audit Function performing work and/or communicating results.

Audit Plan

The Audit Committee is responsible for reviewing and approving the annual audit plan which includes the audit scope and the overall risk assessment methodology presented by the Chief Internal Auditor. The Audit Committee will make an assessment whether it is appropriate, risk based and addresses critical activities over a measurable cycle. The Chief Internal Auditor, on a quarterly basis, reviews the status of the audit plan and any changes needed, including reviews of:

- i. the results of audit activities, including any significant issues reported to management and management's response and/or corrective actions;
- ii. the status of identified control weaknesses;
- iii. the adequacy and degree of compliance with its systems of internal control.

Resources and Competencies

The Committee recognizes that internal auditors must possess the required knowledge, expertise and competencies to perform his/her functions consistent with the requirements of the professional standards.

The Chief Internal Auditor therefore provides the Audit Committee with a regular report on the Unit's personnel, including the sufficiency of resources, their qualifications, certifications, and training and development needs.

Periodic Review

The Audit Committee is responsible for reviewing the effectiveness of the Internal Audit Function and receive reports from the Chief Internal Auditor. On a periodic basis, the Audit Committee may engage an independent third party to assess the Internal Audit Function in accordance with professional standards promulgated by the Institute of Internal Auditors and in the context of regulatory expectations and practices of leading institutions. The Audit Committee reviews the results of those assessments.

DIRECTORS' REPORT

The Directors take pleasure in submitting their Report for the financial year ended June 30, 2022.

DIRECTORS

In accordance with the Bank's Articles of Association one third of the Directors shall retire by rotation at every annual General Meeting. Retiring Directors shall be eligible for re-election.

The retiring Directors by rotation are:

- Ms. Lorna Hunkins
- Dr. N. Analdo Bailey
- Mr. William Liburd

BOARD COMMITTEES

In keeping with its management function and fiduciary duties, the Board of Directors operates through sub-Committees of the Board. There are seven (7) such committees namely: Audit, Credit, Facilities, Finance, Human Resources, Information Technology (IT), and Risk and Compliance.

All committees work closely with management to deal with the challenges facing the financial services industry and the Bank in particular.

FINANCIAL RESULTS AND DIVIDENDS

The Bank focuses its strategic activities on increasing shareholders value by providing its shareholders with a reasonable return on their investment in the Bank.

During the period June 2018 to June 2022, dividend payments were as follows:

- Cash dividend payment of \$13.5m (for the financial year ended June 30, 2018),
- Cash dividend payment of \$20.3m (for the financial year ended June 30, 2019),
- Cash and stock combination payment totaling \$13.5m (for the financial year ended June 30, 2020) and
- Cash dividend payment of \$28.4m (for the financial year ended June 30, 2021).

These represent a total dividend payout over the four-year period of \$75.7m.

The Directors report a net loss after taxation for the year ended June 30, 2022, of \$296.2 million, with earnings per common share of -\$2.14.

An in-depth discussion of the financial performance for the year can be found in the Management Discussion and Analysis, which is presented in a separate section of this Annual Report.

In accordance with the Articles of Association of the Bank the Directors are not able to present a declaration for a dividend for sanction by the shareholders for the financial year ended June 30, 2022. The Articles provide that a dividend is only payable out of the profits arising from the business of the Company and so, because of the net loss incurred for the said financial year and the reduction in the equity reserves, the Directors are unable to make any recommendation for a dividend.

The Directors anticipate a return to improved performance of the Group following the implementation of key strategic initiatives.

OPERATING ENVIRONMENT

Throughout 2022, the global economy continues to face steep challenges, shaped by the lingering effects of three powerful forces: the Russian invasion of Ukraine, a cost-of-living crisis caused by persistent and broadening inflation pressures, and the economic slowdown in China. Despite the best forecasts and analyses, crises are inevitable and many of them unpredictable. The National Bank Group of Companies continues to closely monitor and assess the direct implications of these threats so as to remain vigilant and safeguard our financial stability.

Global growth is forecasted to slow from 6.0 percent in 2021 to 3.2 percent in 2022 and 2.7 percent in 2023, based on the IMF's World Economic Outlook report. The IMF downgraded its global growth forecast for 2023 to 2.7% from a previous forecast of 2.9%, citing rising risks of recession. IMF's Managing Director said the outlook for

the global economy was "darkening" given the shocks caused by the COVID-19 pandemic, Russia's invasion of Ukraine and climate disasters. The Managing Director mentioned that all the world's largest economies – China, the USA and Europe – were now slowing down, which is dampening demand for exports from emerging and developing countries, already hit hard by high food and energy prices. She also stated that even when growth is positive, it will feel like a recession because of shrinking real incomes and rising prices. In addition, the United States Treasury Secretary warned that it is important to recognize that macroeconomic tightening in advanced countries can have international spill overs.

Based on the IMF projections, 2022 and 2023 remains tainted by uncertainty for the global economy, and most countries are expected to perform below the pre-pandemic growth trend through to 2024.

Locally, consumers have already started experiencing the effects of the spill overs with rising food and energy prices. As the cost-of-living increases, downward pressure is placed on private consumption and demand for goods and services due to reduced disposable incomes. With economic uncertainty high, the risk to earnings growth increases.

On the upside, with the Federal Reserve's hike in interest rates on fixed income securities, the Bank has the opportunity to rebalance our investment portfolio now that fixed income securities are more attractive. This will lead to an increase in interest income on bonds, treasury bills and interest-bearing term deposits, thereby boosting the Bank's earnings.

RESULTS OF OPERATIONS

Net Interest Income

Net interest income decreased \$0.9 million or 6.7% to \$12.6 million in 2022 compared to 2021. This decrease stemmed from an increase in interest expense of \$2.1 million, moderated by an increase in interest income of \$1.2 million (see Table 1).

During the year under review, there was a significant pay down of the Financial Asset totalling \$205 million and this resulted in a significant reduction in interest income. In addition, lower interest income was earned on FVTPL debt securities due to the redemption of high interest yielding investments. Overall, interest income earned for 2022 decreased when compared to 2021.

During the year ended June 2022, there was an increase in interest expense due primarily to the continued increases in fixed deposit balances held during the year.

Notwithstanding the foregoing, as at the end of June 2022, the Bank's net interest margin (net interest income as a percentage of average assets) remained unchanged at 0.4% in June 2021.

Table 1

(In Millions)	2022	2021	Change	
			\$	%
Interest Income	63.2	62.0	1.2	1.9
Loans & Advances	42.1	38.4	3.7	9.6
Investments	21.1	23.6	(2.5)	(10.6)
Interest Expense	50.6	48.5	2.1	4.3
Demand	1.0	1.0	-	-
Savings	11.6	10.9	0.7	6.4
Time	37.5	36.1	1.4	3.9
Other	0.5	0.5	-	-
Net Interest Income	12.6	13.5	(0.9)	(6.7)

Non-Interest Income

Non-interest income declined by \$531.7 million when compared to 2021 (due to the following drivers):

- The global stock markets, which reached bear market territory in June 2022, reacted negatively to economic growth concerns. Investors' concerns moved to the forefront following recession talks, rising inflation and the Federal Reserve's interest rate hikes in their attempts to curb inflation. These market drivers triggered lower stock market prices, which led to fair value losses of \$252.9 million on both equity and debt instruments (carried at FVTPL) held in the investment portfolio of the Bank, thereby causing Other Income to fall by \$537.6 million based on the amount of \$341.9 million earned for the year ended June 2021. The result of this was Other Loss of \$195.6 million for the year ended June 2022. The reduction in other income was moderated by the following:
 - Increase in fee and commission income from E-business and card transactions by \$3.1 million, driven primarily by elevated income from higher levels of client activity and increased merchant services revenue due to merchant rate adjustments.
 - Service charges on incoming wires increased by \$2.8 million due to an increased volume in client wire activity.

Table 2

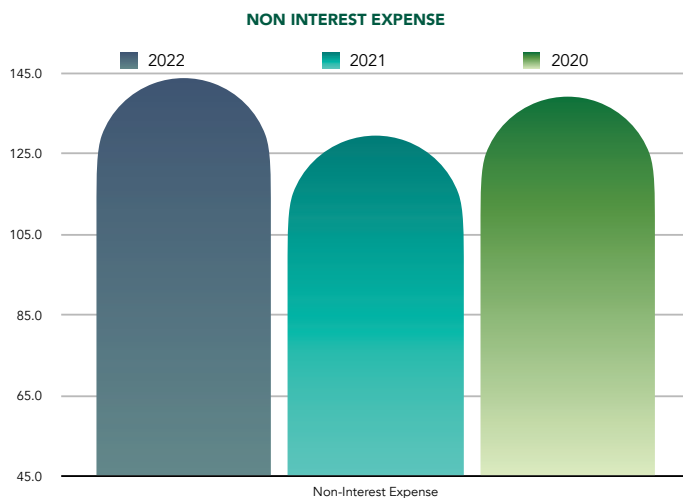

(In Millions)	2022	2021	Change	
			\$	%
Fee and Commission Income	23.0	17.1	5.9	34.5
Dividend	9.9	7.6	2.3	30.3

Net Insurance related income	41.1	40.6	0.5	1.2
Foreign Exchange gains	5.7	5.7	-	-
Other	1.0	1.0	-	-
Non-Interest Income (Loss)	(172.6)	359.1	(531.7)	(148.1)

Non-Interest Expenses

During the year under review, non-interest expenses increased by \$15.1 million or 11.6% from \$129.7 million in 2021 to \$144.8 million in 2022. The increase was primarily due to an increase in card related fee expenses, a net increase in impairment charges (ABI Bank), offset by a decrease in administrative and other expenses.

Table 3

(In Millions)	2022	2021	Change	
			\$	%
Administrative and general expenses	59.1	61.9	(2.8)	(4.5)

Impairment charges	39.1	26.8	12.3	45.9
Depreciation and amortization	3.0	3.3	(0.3)	(9.1)
Directors' Fees & Expenses	1.4	1.2	0.2	16.7
Professional fees and related expenses	1.0	0.8	0.2	25.0
Non-Interest Expenses	144.8	129.7	15.1	11.6

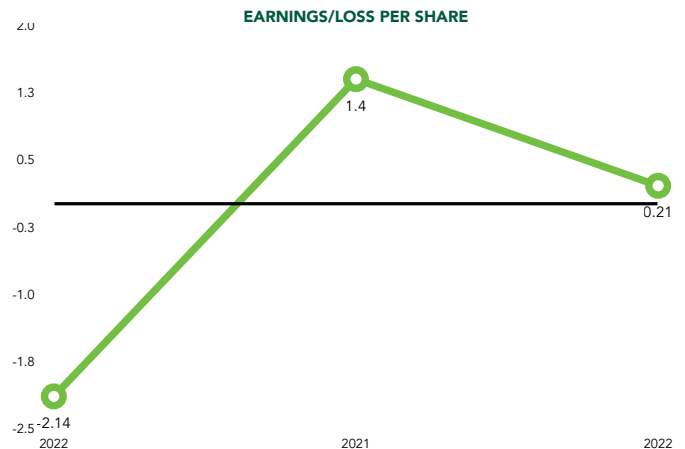

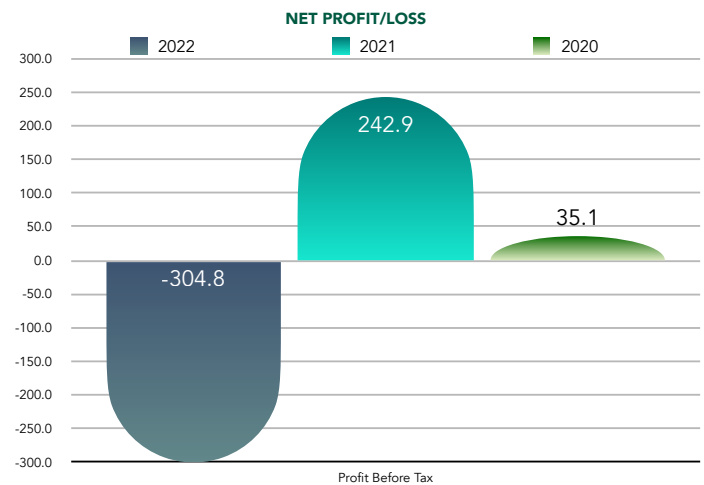

Net Income

For the financial year ended June 2022, the National Bank Group reported a net loss before tax of \$304.8 million. This represents a reduction of \$547.7 million from the net profit of \$242.9 million recorded in 2021. After applying an income tax credit of \$8.6 million, the Group reported a net loss of \$296.2 million for the year ended June 2022. Consequently, loss per share (basic and diluted) decreased to (\$2.14) in 2022 when compared to earnings per share of \$1.40 in 2021. (See table 4)

Table 4

(In Millions)	2022	2021	Change	
			\$	%

Non-Interest Expenses	(144.8)	(129.7)	(15.1)	11.6
Net Income/(Loss) Before Tax	(304.8)	242.9	(547.7)	(225.5)

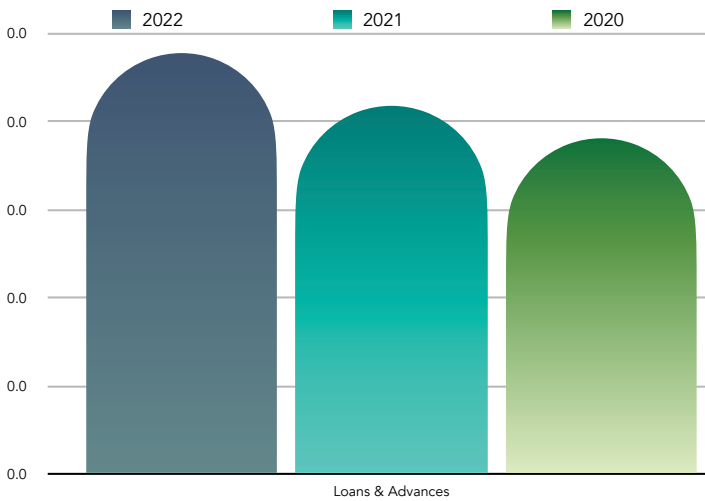

FINANCIAL CONDITIONS

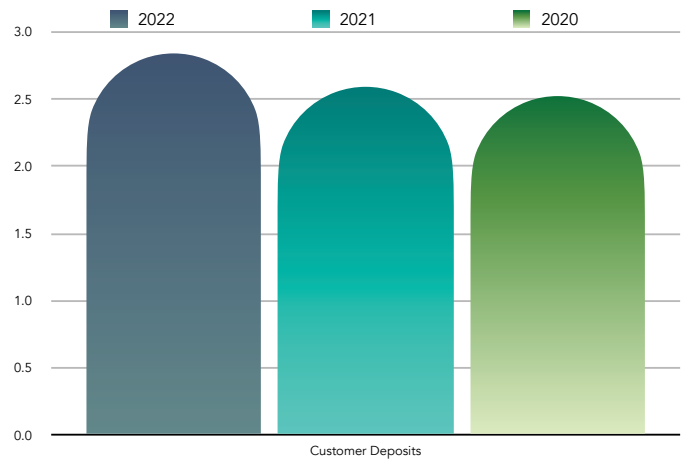

Loans and Advances

Total Loans and Advances to customers increased by \$97.1 million or 11.2% to \$964.6 million in 2022 over 2021, driven by strong demand for Demand Loans and Mortgages loans. Demand loans accounted for 67.8% of the total productive loans and advances portfolio. Mortgages, on the other hand, account for 22.7% of the productive portfolio. All other loan categories accounted for the remaining 9.5%. SKNANB's market share of total loans and advances in the Federation of St Kitts and Nevis increased 60 basis points from 43.6% in 2021 to 44.2% in 2022 and when compared to the ECCU, moved up 30 basis points from 6.7% to 7.0% over the same period.

LOANS AND ADVANCES

CUSTOMER DEPOSITS

DEPOSIT MIX

Customer Deposits

Customer deposits continued its upward trend during the year, moving from \$2.60 billion to \$2.84 billion at the end of June 2022 when compared with the end of June 2021. This represents a growth of \$244.5 million or 9.4%. The increase in customer deposits has been due mainly to higher noninterest-bearing institutional demand deposits and household savings deposit balances. Direct demand deposits increased by \$190.9 million or 28.3%, savings deposits rose by \$39.8 million or 6.9%, while fixed deposit balances grew by \$19.0 million or 1.6%. These increases in deposit balances suggest that depositors’ trust, loyalty and confidence in the National Brand continues to be strong.

The share of the market for customer deposits that is controlled by the Bank is another indication of the continued confidence that customers have in the Bank. As at June 2022, National Bank commanded 53.0% of the total deposit market. Payments made on the interest-bearing deposits amounted to \$50.3 million in 2022 compared to \$48.4 million in 2021. The average effective rate of interest paid on customers’ deposits was 1.85% in 2022, compared with 1.94% in 2021.

CAPITAL AND LIQUIDITY

The National Bank Group manages its capital position so that its capital is more than adequate to support its business activities and aligns with risk appetite and strategic planning. We seek to maintain safety and soundness at all times, even under adverse scenarios. The Group seeks to take advantage of organic growth opportunities, meet obligations to creditors and counterparties, maintain ready access to liquidity sources, remain a source of strength for our subsidiaries, and satisfy current regulatory capital requirements.

Capital plays an important role against potential risk; hence the Group has sharpened its focus on capital management and recently completed its Capital Planning and Preservation Policy. With the increased potential market, earnings and credit risks faced by the Group, there is a need to have a comprehensive, progressive, and formalized process to ensure adequate capital levels are maintained and augmented when deemed necessary to support the financial risks faced by the Institution.

In 2023, the Group will conduct an Internal Capital Adequacy Assessment Process (ICAAP), which is a forward-looking assessment of our projected capital needs and resources, incorporating earnings, balance sheet and risk forecasts under baseline and adverse economic and market conditions. The ICAAP results will be documented and assessed to determine the adequacy of our capital position based on regulatory capital guidelines.

The Group continued to maintain a capital position in financial year 2022, which exceeded the regulatory minimum requirements of 6% for Tier 1 capital and 8% for the Capital Adequacy ratio. This is evidenced by the Tier 1 capital ratio of 22% and Capital Adequacy ratio (CAR) of 23%.

The Group also remained liquid and continues to maintain a prudent level of marketable assets that can be easily liquidated as protection against unforeseen liquidity problems. The Group held short term interest-bearing

term deposits and investments for liquidity, which stood at \$299.2 million at the end of June 2022.

RISK MANAGEMENT

Like any other financial institution, the Group's activities expose it to a variety of financial risks, as taking risk is inherent in our business activities. Sound risk management enables us to serve our customers and deliver for our shareholders. If not managed well, risk can result in financial loss, regulatory sanctions and penalties, and damage to our reputation, each of which may adversely impact our ability to execute our business strategies. We take a comprehensive approach to risk management with a defined Enterprise-wide Risk Management framework and an articulated Risk Appetite Statement.

The National Bank Group of Companies monitors and manages risk with an Enterprise Risk Management (ERM) program, which continues to mature and become more robust. The management of Operational Risk and Financial Risk has also been substantially developed. Strategic Risk and Market Risk have received increased focus in the past financial year. The Risk and Compliance Unit has continuously examined developments in global markets to determine the impact on the Group's operations so as to remain agile and competitive in the face of extreme economic uncertainty resulting from the lingering effects of the Covid-19 Pandemic and the current Russia/Ukraine conflict.

By constantly assessing the threat landscape and implementing mitigation measures to safeguard its people, property, and assets, the Group remains strong and resilient. Mindful of the increasing threat to its Cyber Security, the Group continues to implement measures to identify, assess and mitigate threats to its information systems.

Increased emphasis will be placed on expanding the risk management programs of National Caribbean Insurance Company and the Trust Company going forward. This will allow for complete integration of the Enterprise-wide Risk Management program to facilitate a more comprehensive risk reporting and a more holistic management of the risks facing the National Bank Group of Companies.

National Caribbean Insurance Company (NCI)

NCI achieved a net profit before tax of \$9.2 million. This represented a 41% decrease in the prior year profit of \$15.7 million which was mainly attributable to a downturn in investment income.

Net Investment Income fell by 58% from \$10.2 million in 2021 to \$4.3 million in 2022. This considerable decline was brought about by the fall in global equity markets. Inflation pressures have hit world economies, largely due to surging energy prices resulting from the

Russia-Ukraine war. Also, China's zero-COVID strategy and restrictions have restrained economic activity and negatively impacted securities markets.

National Bank Trust Company (St. Kitts-Nevis-Anguilla) Limited

At the end of June 2022, National Bank Trust Company (St. Kitts Nevis Anguilla) reported a net profit after-tax of \$363 thousand when compared to a profit of \$75 thousand for the previous year. This represents a \$288 thousand increase over the previous year's net profit after tax of \$75 thousand.

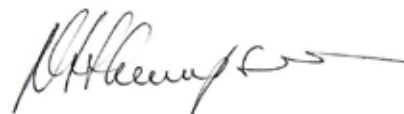

The profit for the financial year 2022 was due primarily to an increase in other operating income during the year.

St. Kitts-Nevis Mortgage and Investment Company (MICO)

The St. Kitts-Nevis Mortgage and Investment Company reported a loss of \$558 thousand for the financial year ended June 2022 when compared with a loss of \$475 thousand reported for June 2021.

OUTLOOK

According to the new World Bank report, "New Approaches to Closing the Fiscal Gap" regional GDP will grow by 3.0 percent in 2022, a higher than previously expected rate due to rising commodity prices and the normalization of activities in contact-sensitive sectors. However, the report states that strong global uncertainty as a result of the war in Ukraine, higher interest rates in developed countries and persistent inflationary pressures will impact economies in the region. Low growth rates of 1.6 and 2.3 percent are expected in 2023 and 2024 respectively. Uncertainty over the trajectory of the U.S. economy, with a shallow recession now expected in the first half of 2023, is a key downside risk to local growth forecasts and earnings growth.

Donald Thompson
CHIEF EXECUTIVE OFFICER

CONSOLIDATED FINANCIAL STATEMENTS

Independent Auditor's Report
To the Shareholders of
St. Kitts-Nevis-Anguilla National Bank Limited

Opinion

We have audited the consolidated financial statements of **St. Kitts-Nevis-Anguilla National Bank Limited** (the "Bank") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as of June 30, 2022, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in shareholders' equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of June 30, 2022, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISA"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants ("IESBA Code")*, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters ...continued

Expected credit losses (“ECL”) of financial assets

Description of the Matter

The ECL of financial assets is a key audit matter, as it requires the application of critical management judgement and use of subjective estimates in determining the amount of ECL that are required to be recognised in the consolidated financial statements. As of June 30, 2022, the Group’s financial assets with credit risk that are subject to ECL assessment amounted to \$1,907,502,000 which represents 52% of total assets.

Accordingly, the Group used the ECL model in determining the credit loss allowance for its financial assets. Under IFRS 9, the assessment of credit risk of a portfolio of assets entails further estimations as to the likelihood of default occurring, the associated loss ratio and of default correlation between counterparties. Furthermore, the Group incorporates forward-looking information into the assessment of whether the credit risk of an instrument has increased significantly from its initial recognition to the measurement date of ECL. The Group has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables, credit risk and credit losses.

The disclosures relating to the credit loss allowances for the financial assets, and the related credit risk are included in notes 3 to 10, 16 and 32 to the consolidated financial statements.

How the Matter was addressed in the Audit

Our audit procedures to address the risk of material misstatement relating to the adequacy of the ECL allowance on the financial assets, which was considered to be a significant risk, included the following:

- Obtained an understanding of and critically assessed the Group’s updated accounting policies relating to the classification, measurement and ECL assessment of financial assets;
- Assessed and evaluated the effectiveness of controls over the approval, recording and monitoring of financial assets, classification into credit risk stages, and calculation of ECL allowance;
- Evaluated the inputs and assumptions, as well as the formulae used in the development of the ECL models for the various financial assets. This includes assessing the appropriateness of design of the ECL impairment model and formulae used in determining the ECL;
- Evaluated the classification of credit-impaired loans and advances to customers to stage 3 for completeness of the population of loans and advances to customers included in the stage 3 ECL calculation. Independently tested the accuracy of management’s stage 3 ECL calculation on a sample basis;
- Examined the collateral values recorded by management by comparing them to independent valuation reports of independent professional valuers;
- Assessed the estimated costs and time to sell pledged collaterals used in the ECL calculation for reasonableness; and
- Assessed the key credit risk factors such as default history, macro-economic factors and financial capability of counterparties.

Key Audit Matters ...continued

Fair value measurement of investment securities

Description of the Matter

The Group has investment securities measured at fair value amounting to \$1,170,641,000. A significant portion of these investment securities amounting to \$67,101,000 do not trade in active markets with quoted prices. The valuation of these financial instruments have a higher estimation uncertainty due to the use of observable and unobservable data and various assumptions, using complex valuation models. The use of different valuation techniques and assumptions could result in significantly different estimates of fair value. Accordingly, we have assessed the valuation of the investment securities as a key audit matter.

How the Matter was addressed in the Audit

Our audit procedures to address the risk of material misstatement relating to the fair value of investment securities that do not trade in active markets, included the following:

- We used an independent valuation expert to develop an independent estimated fair value for a sample of investment securities that do not trade in an active market on a test basis, including level 2 and level 3 investment securities. The estimate was based on an independently developed discounted cash flow model, an option adjusted model, or a fundamental analysis to determine the price. The valuation specialist used data available for the equity, fixed income and other types of financial instruments collected independently.
- We recomputed the fair values for local and regional equity securities based on the inputs and compared to the fair values used by management in the consolidated financial statements; and
- We obtained and assessed the Service Organization Control (SOC₁) Type II report on the description of the Group's Investment Custodians' operations systems and the suitability of the design and operating effectiveness of their controls.

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISA, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements ...continued

From the matters communicated to the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lisa M. Roberts.

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

1 Incorporation and principal activity

St. Kitts-Nevis-Anguilla National Bank Limited (the “Bank”) was incorporated as a public limited company on February 15, 1971 under the Companies Act Chapter 335, and was re-registered under the new Companies Act No. 22 of 1996 on April 14, 1999. The Bank operates in both St. Kitts and Nevis and is subject to the provisions of the Banking Act of 2015. The Bank is a public company listed on the Eastern Caribbean Securities Exchange.

The Bank’s registered office is at Central Street, Basseterre, St. Kitts. The principal activities of the Bank and its subsidiaries (the “Group”) are described below.

The Bank is principally involved in the provision of financial services being primarily commercial banking and investment activities. The Bank is regulated by the Eastern Caribbean Central Bank (“the Central Bank” or “ECCB”).

The Bank’s subsidiaries and their activities are as follows:

- *National Bank Trust Company (St. Kitts-Nevis-Anguilla) Limited (“Trust Company”)*

The Trust Company was incorporated on January 26, 1972 under the Companies Act Chapter 335, and was re-registered under the new Companies Act No. 22 of 1996 on April 14, 1999.

The principal activity of the Trust Company is the provision of long-term mortgage financing, raising long-term investment funds, real estate development, property management and the provision of trustee services.

- *National Caribbean Insurance Company Limited (“Insurance Company”)*

The Insurance Company was incorporated on June 20, 1973 under the Companies Act Chapter 335, and was re-registered under the new Companies Act No. 22 of 1996 on April 14, 1999.

The Insurance Company provides life insurance coverage, non-life insurance coverage and pension schemes.

The Company is regulated by Financial Services Regulatory Commission (FSRC) and the Anguilla Financial Services Commission (AFSC) for its operations in St. Kitts and Nevis and for its operations in Anguilla, respectively.

- *St. Kitts and Nevis Mortgage and Investment Company Limited (“MICO”)*

MICO was incorporated on May 25, 2001 under the Companies Act No. 22 of 1996 and commenced operations on May 13, 2002.

MICO acts as the real estate arm of the Group with its main operating activities being the acquisition and sale of properties.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies

The principal accounting policies applied in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC). The consolidated financial statements have been prepared under the historical cost convention, except for the revaluation of certain properties and financial instruments, and in accordance with the going concern assumption.

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4.

2.2 Changes in accounting policies

New standards and amendments effective for the financial year beginning July 1, 2021

Standards and amendments that are effective for the first time on July 1, 2021 are as follows:

- Interest Rate Benchmark Reform — Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16); and
- COVID-19-Related Rent Concessions (Amendments to IFRS 16).

These amendments do not have a material impact on these separate financial statements and therefore the disclosures have not been made.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Group

At the date of authorisation of these consolidated financial statements, certain new standards, and amendments to existing standards have been published by the IASB that are not yet effective and have not been adopted early by the Group. Information on those expected to be relevant to the Group's consolidated financial statements is provided below.

Management anticipates that all relevant pronouncements will be adopted in the Group's accounting policies for the first period beginning after the effective date of the pronouncement. These standards are not expected to have a material impact on the Group's consolidated financial statements in future reporting periods and on foreseeable future transactions.

IFRS 17, Insurance Contracts (effective from January 1, 2023)

IFRS 17 was issued in May 2017 as replacement for IFRS 4, *Insurance Contracts*. It requires a current measurement model where estimates are re-measured each reporting period. Contracts are measured using the building blocks of:

- discounted probability-weighted cash flows;
- an explicit risk adjustment; and
- a contractual service margin ("CSM") representing the unearned profit of the contract which is recognised as revenue over the coverage period.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
 June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.2 Changes in accounting policies ...continued

Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Group ...continued

IFRS 17, Insurance Contracts (effective from January 1, 2023) ...continued

The standard allows a choice between recognising changes in discount rates either in the profit or loss or directly in other comprehensive income. The choice is likely to reflect how insurers account for their financial assets under IFRS 9.

An optional, simplified premium allocation approach is permitted for the liability for the remaining coverage for short duration contracts, which are often written by non-life insurers.

There is a modification of the general measurement model called the ‘variable fee approach’ for certain contracts written by life insurers where policyholders share in the returns from underlying items. When applying the variable fee approach the entity’s share of the fair value changes of the underlying items is included in the contractual service margin. The results of insurers using this model are therefore likely to be less volatile than under the general model.

The new rules will affect the financial statements and key performance indicators of all entities that issue insurance contracts or investment contracts with discretionary participation features.

The directors anticipate that the application of IFRS 17 in the future will have a material impact on the amounts reported and the disclosures made in the financial statements due to the significant changes in the determination and recognition of profit related to insurance contracts.

The Company has currently engaged various consultants to assist with the implementation of the Standard. To date, the Company has outlined the following areas as having the most significant/severe impacts and complexity factors in its data, systems and processes:

- Operational data store;
- Actuarial and risk models;
- IFRS 17 calculation engine; and
- Reporting, analytics and visualisation and disclosure.

Areas which have been identified with medium severity/complexity factors are as follows:

- Planning, budgeting, forecasting and MI;
- Master data management;
- Governance risk compliance;
- Accounting rules engine; and
- Allocations.

Notwithstanding this, management has yet to fully assess the impact of IFRS 17 on these financial statements and is not yet in a position to provide quantified information. The new standard is required to be applied for annual reporting periods beginning on or after January 1, 2023.

There are no other new or amended standards and interpretations that are issued but not yet effective, that are expected to have a significant impact on the accounting policies or financial disclosures of the Company.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.3 Basis of consolidation

The Group financial statements consolidate those of the parent company and all of its subsidiaries as of June 30, 2022. The parent controls a subsidiary if it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. All subsidiaries have a reporting date of June 30. All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from a group perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group. Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable.

2.4 Cash and cash equivalents

Cash comprises cash on hand and demand and call deposits with Groups. Cash equivalents are short-term, highly liquid investments with original maturities of ninety (90) days or less that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Cash and cash equivalents are subject to an insignificant risk of change in value. Cash and cash equivalents exclude balances held to meet statutory requirements and restricted deposits.

2.5 Financial assets and liabilities

Classification and measurement

The Group has applied IFRS 9 and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

i) Debt instruments

Debt instruments are those instruments that contain contractual obligations to pay the instrument holder certain cash flows, such as government and corporate bonds, and loans and receivables.

Classification and subsequent measurement of debt instruments depend on:

- the Group's business model for managing the asset; and
- the cash flow characteristics of the asset.

2.5 Financial assets and liabilities ...continued

Classification and measurement ...continued

i) Debt instruments ...continued

Business model test:

Business model reflects the objective of the Group holding different assets. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, the financial assets are held for trading purposes and are measured at FVTPL.

Solely payments of principal and interest (SPPI) test:

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' cash flows represent solely payments of principal and interest. In making this assessment, the Group considers whether interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement.

Based on these factors, the Group classifies its debt instruments into one of the following three measurement categories:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, and that are not designated at FVTPL, are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised and measured.
- **FVOCI:** Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVTPL, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortised cost which are recognized in profit or loss.
- **FVTPL:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognized in profit or loss.

The Group reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be infrequent and none occurred during the period.

2 Significant accounting policies ...continued

2.5 Financial assets and liabilities ...continued

Classification and measurement ...continued

ii) Equity instruments

Equity instruments are instruments that do not contain contractual obligations to pay the instrument holder and that evidence residual interests in the issuer's net assets. The Group subsequently measures all equity investments at FVTPL, except where the Group's management has elected, at initial recognition, to irrevocably designate an equity investment at FVOCI.

The Group's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognised in other comprehensive income and are not subsequently reclassified to profit or loss, including on disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Credit risk measurement

IFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarised below:

- A financial instrument that is not credit-impaired on initial recognition is classified in 'stage 1'. Financial instruments in stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible within the next 12 months.
- If a significant increase in credit risk ('SICR') since initial recognition is identified, the financial instrument is moved to 'stage 2' but is not yet deemed to be credit-impaired. Instruments in stage 2 have their ECL measured based on expected credit losses on a lifetime basis.
- If the financial instrument is credit-impaired, the financial instrument is then moved to 'stage 3'. Instruments in stage 3 have their ECL measured based on expected credit losses on a lifetime basis.
- Purchased or originated credit-impaired financial assets are those financial assets that are credit-impaired on initial recognition. Their ECL is always measured on a lifetime basis.

For debt securities, the Group examines the issuer's capital adequacy, financial performance, liquidity position, and credit rating to assess whether the issuer has experienced significant increase in credit risk since the origination of the assets. When no external credit rating is available, the Group assigns internal credit rating based on internal risk criteria. The Group also considers if there is any negative press or adverse market information that may indicate changes in credit risk.

For loans and advances and other receivables, delinquency status is utilized as the main indicator for changes in credit risk. Credit management actions are triggered by movement in days past due. Other qualitative factors are considered, which include but are not limited to:

- Early signs of cash flow/liquidity problems;
- In short-term forbearance;
- Known adverse change in financial conditions; and,
- Known adverse changes in business or economic conditions in which the borrower operates.

Notes to Consolidated Financial Statements
 June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.5 Financial assets and liabilities ...continued

Credit risk measurement ...continued

Significant increase in credit risk (SICR)

The Group considers a financial instrument to have experienced a SICR if:

- An obligor's external or internal credit rating is downgraded to below investment grade (BB+/Ba1, its internal equivalent or lower) compared to the rating at initial recognition;
- A below investment grade instrument is lowered by 2 or multiple notches; or
- Payment of principal and/or interest is more than 30 days past due.

If one or more of the above conditions are satisfied, the financial asset is transferred to stage 2 from stage 1. The assignment of a financial instrument to stage 3 will be based on the status of the obligor being in default. Assets in stage 2 or 3 will be transferred back to stage 1 or 2 once the criteria for significant increase in credit risk or impairment are no longer met.

The staging assessment requires the Group to monitor credit risk through regular credit reviews or other monitoring at a counterparty level. All loans and investment securities held by the Group are allocated to a credit quality rating or risk grade (internal or external) based on the most recent review, using forward-looking and other available information on an annual basis. The criteria used to identify SICR are monitored and reviewed periodically for appropriateness by Management.

Backstop

A backstop is applied and the financial instrument is considered to have experienced a significant increase in credit risk if the borrower is more than 30 days past due on its contractual payments.

If an asset is in investment grade at reporting date, it will be in stage 1 irrespective of its origination rating. With respect to loans and advances to customers however, the Group has not used the low credit risk exemption for any of those financial instruments for the years ended June 30, 2022 and June 30, 2021.

Default

For debt securities, default is defined as having missed the contractual payments of principal or interest. For loans and advances, and other receivables, the Group defines default based on the following criteria:

Quantitative criteria

The borrower is more than 90 days past due on its contractual payments.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.5 Financial assets and liabilities ...continued

Credit risk measurement ...continued

Default ...continued

Qualitative criteria

The borrower meets unlikeliness to pay criteria, which indicates the borrower is in significant financial difficulty. Examples of these instances are:

- The borrower is in long-term forbearance;
- The borrower is deceased;
- The borrower is insolvent; and
- The borrower is in breach of financial covenants.

The criteria above are consistent with the definition of default used for internal credit risk management purposes.

Impairment measurement

The Group assesses on a forward-looking basis the expected credit losses ('ECL') associated with its debt instruments carried at amortised cost and FVOCI and with the exposure arising from loan commitments. The Group recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The estimation of credit exposure for risk management purposes is complex and requires the use of models, as the exposure varies with changes in market conditions, expected cash flows and the passage of time. The Group measures credit risk using Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD).

PD represents the likelihood of a borrower defaulting on its financial obligation either over the next 12 months (12M PD), or over the remaining lifetime (Lifetime PD) of the obligation. PD is generated based on historical default data of each portfolio.

EAD is based on the amounts the Group expects to be owed at the time of default, over the next 12 months (12M EAD) or over the remaining lifetime (Lifetime EAD). EAD is assessed based on contractual terms of the debt instrument.

LGD represents the Group's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, availability of collateral or other credit support, and historical recovery information.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.5 Financial assets and liabilities ...continued

Impairment measurement...continued

ECL is determined by projecting the PD, LGD and EAD for future periods and for each individual exposure or collective segment. These three components are multiplied together and discounted back to the reporting date using the effective interest rate. For expected credit loss provisions modelled on a collective basis, a group of exposures is assessed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

Forward looking information

When incorporating forward looking information, such as macroeconomic forecasts, into the determination of expected credit losses, the Group considers the relevance of the information for each specific group of financial instruments. The macroeconomic indicators utilised include, but are not limited to, GDP growth and unemployment rate. These variables and their associated impact on the ECL varies by financial instrument.

In addition to the base economic scenario, the Group also incorporates upside and downside scenarios along with scenario weightings. The number of other scenarios used is set based on the analysis of each product type to ensure non-linearities are captured. The attributes of scenarios are reassessed at each reporting date. The scenario weightings takes account of the range of possible outcomes of which each chosen scenario is representative.

Derecognition of financial assets

Financial assets are derecognised when the right to receive cash flows from the financial assets have expired or where the Group has transferred substantially all risks and rewards of ownership. Financial assets that are transferred to a third party but do not qualify for derecognition are presented in the consolidated statement of financial position as 'Pledged assets', if the transferee has the right to sell or repledge them. Financial assets that are transferred to a third party but do not qualify for derecognition are presented in the consolidated statement of financial position as 'Pledged assets', if the transferee has the right to sell or repledge them.

Financial liabilities

Financial liabilities are initially measured at fair value, net of transaction costs. They are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities include customers' deposits, borrowings, acceptances, guarantees and letters of credit, accumulated provisions, creditors and accruals, other liabilities and lease liabilities.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.5 Financial assets and liabilities ...continued

Derecognition of financial liabilities

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires). The exchange between the Group and its original lenders of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of interest rate, new conversion features attached to the instrument and change in covenants are also taken into consideration. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

2.6 Employee benefits

i) Short-term employee benefits

Short-term employee benefits, including holiday entitlement, are current liabilities included in accumulated provisions, creditors and accruals, measured at the undiscounted amount that the Group expects to pay as a result of the unused entitlement.

ii) Gratuity

The Group provides a gratuity to its employees after fifteen (15) years of employment. The amount of the gratuity payment to eligible employees at retirement is computed with reference to final salary and calibrated percentage rates based on the number of years of service. Provisions for these amounts are included in the consolidated statement of financial position.

iii) Pension plan

The Group operates a defined benefit plan. The administration of the plan is conducted by the Insurance Company, one of the subsidiaries. The plan is funded through payments to trustee-administered deposit funds determined by periodic actuarial calculations. A defined benefit plan is a pension plan which defines an amount of pension benefit that an employee will receive on retirement based on factors such as age, years of service and final salary. The cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuation being carried out at the end of each reporting period.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.6 Employee benefits ...continued

iii) Pension plan ...continued

The asset figure recognised in the consolidated statement of financial position in respect of net defined benefit asset is the fair value of the plan assets less the present value of the defined benefit obligation at the reporting date. The retirement benefit asset recognised in the consolidated statement of financial position represents the actuarial surplus in the defined benefit plan. Re-measurements comprising of actuarial gains and losses, the effect of the asset ceiling (if applicable) and the return on plan assets (excluding interest) are recognised immediately in the consolidated statement of financial position with a charge or credit to other comprehensive income in the period in which they occur. Re-measurement recorded in other comprehensive income is not recycled. However, the Group may transfer those amounts recognised in other comprehensive income within equity.

2.7 Property and equipment

Land and buildings held for use in the rendering of services, or for administrative purposes, are stated in the consolidated statement of financial position at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are performed with sufficient regularity, usually every five (5) years, such that the carrying amount does not differ materially from that which would be determined using fair values at the year end.

Any revaluation increase arising on the revaluation of such land and buildings is credited in equity to revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in income, in which case the increase is credited to income to the extent of the decrease previously charged. A decrease in the carrying amount arising on the revaluation of such land and buildings is charged to income to the extent that it exceeds the balance, if any, held in the fixed asset revaluation reserve relating to a previous revaluation of that asset.

Depreciation on revalued buildings is charged to the consolidated statement of income. On the subsequent sale or retirement of a revalued property, any revaluation surplus remaining in the revaluation reserve is transferred directly to retained earnings. No transfer is made from the fixed asset revaluation reserve to retained earnings except when an asset is derecognised.

Projects ongoing represents structures under construction and project development not yet completed and is stated at cost. This includes the costs of construction and other direct costs. Projects ongoing is not depreciated until such time that the relevant assets are ready for use.

Freehold land is not depreciated. Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on the following bases:

Buildings:	25 – 45 years
Leasehold improvements:	25 years, or over the period of lease if less than 25 years
Equipment, fixtures and fittings and motor vehicles:	3 – 10 years
Right-of-use assets:	3 – 10 years

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.7 Property and equipment ...continued

Depreciation is charged so as to write off the cost or valuation of assets, other than freehold land, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year-end, with the effect of any changes in estimates accounted for on a prospective basis.

All repairs and maintenance are charged to the consolidated statement of income during the financial period in which they are incurred.

The gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in the consolidated statement of income.

2.8 Intangible assets

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and to bring into use the specific software. These costs are amortised on the basis of the expected useful life of such software which is three to five years.

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

2.9 Impairment of non-financial assets

Non-financial assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

2.10 Insurance contracts

i) Classification

The Group issues contracts that transfer insurance risk or financial risk or both. Insurance contracts are those contracts that transfer significant insurance risk. Such contracts may also transfer financial risk.

ii) Recognition and measurement

Insurance contracts issued are classified as short-term insurance contracts and long-term insurance contracts with fixed and guaranteed payments.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.10 Insurance contracts ...continued

ii) Recognition and measurement ...continued

Short-term insurance contracts

- Property and casualty insurance business

Property and casualty insurance contracts are generally one year renewable contracts issued by the Group covering insurance risks over property, motor, accident and marine.

Property insurance contracts mainly compensate the Group's customers for damage suffered to their properties or for the value of the property lost. Customers who undertake commercial activities on their premises could also receive compensation for the loss of earnings caused by the inability to use the insured properties in their business activities (business interruption cover).

Casualty insurance contracts protect the Group's customers against the risk of causing harm to third parties as a result of their legitimate activities. Damages covered include both contractual and non-contractual events. The typical protection offered is designed for individual and business customers who become liable to pay compensation to a third party for bodily harm or property damages (public liability).

Premiums are recognised as revenue (earned premiums) proportionally over the period of coverage. The portion of premium received on in-force contracts that relates to unexpired risks at the reporting date is reported as the unexpired insurance risk. Premiums are shown before deduction of commissions.

Claims and loss adjustment expenses are charged to income as incurred based on the estimated liability for compensation owed to contract holders or third parties damaged by the contract holders. They include direct and indirect claims settlement costs and arise from events that have occurred up to the reporting date even if they have not yet been reported to the Group. The Group does not discount its liabilities for unpaid claims. Liabilities for unpaid claims are estimated using:

- the input of assessments for individual cases reported to the Group; and
- statistical analyses for the claims incurred but not reported.

These are used to estimate the expected ultimate cost of more complex claims that may be affected by external factors (such as court decisions).

- Health insurance business

Health insurance contracts are generally one year renewable contracts issued by the Group covering insurance risks for medical expenses of insured persons. The liabilities of health insurance policies are estimated in respect of claims that have been incurred but not reported and claims that have been reported but not yet paid, due to the time taken to process the claim.

Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.10 Insurance contracts ...continued

ii) Recognition and measurement ...continued

Long-term insurance contracts with fixed and guaranteed terms

- Life insurance business

These contracts insure events associated with human life (for example, death and survival) over a long duration. Premiums are recognised as revenue when they are received or become receivable from the policyholder. Premiums are shown before deduction of commission. Benefits are recorded as an expense when they are incurred.

The determination of actuarial liabilities on life policies is based on the Net Level Premium (“NLP”) reserve method. This reserve method uses net premiums as opposed to calculating reserves on a first principles gross premium valuation. The NLP reserve method does not use lapse rates or expenses and takes into consideration only the bonus additions allocated to the policy to date. Future bonus additions are not considered in the valuation. The Group utilises an actuary for the determination of the actuarial liabilities. These liabilities consist of amounts that together with future premiums and investment income are required to provide for policy benefits, expenses and taxes on life insurance contracts. The process of calculating actuarial liabilities for future policy benefits involves the use of estimates concerning factors such as mortality and morbidity rates, future investment yields and future expense levels and persistency.

The liabilities are recalculated at each end of the reporting period using the assumptions established at inception of the contracts.

iii) Reinsurance contracts held

The Group obtains reinsurance contracts coverage for insurance risks underwritten. The Group cedes insurance premiums and risk related to property and casualty contracts in the normal course of business in order to limit the potential for losses arising from its exposures. Reinsurance does not relieve the Group of its liability. The benefits to which the Group are entitled under reinsurance contracts held are recognised as reinsurance assets. Reinsurance assets are assessed for impairment and if evidence that the asset is impaired exists, the impairment is recorded in the consolidated statement of income. The obligations of the Group under reinsurance contracts held are included under insurance contract liabilities.

iv) Liability adequacy test

At the end of the reporting period, liability adequacy tests are performed by the Group to ensure the adequacy of insurance contract liabilities, using current estimates of the related expected future cash flows.

If a test indicates that the carrying value of insurance contract liabilities is inadequate, then the liabilities are adjusted to correct the deficiency. The deficiency is included in the consolidated statement of income under claims and benefits.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.10 Insurance contracts ...continued

v) *Receivables and payables related to insurance contracts*

Receivables and payables are recognised when due. These include amounts due to and from agents, brokers and insurance contract holders.

If there is objective evidence that the insurance receivable is impaired, the Group reduces the carrying amount of the insurance receivable accordingly and recognises that impairment loss in the consolidated statement of income. The Group gathers the objective evidence that an insurance receivable is impaired using the same process adopted for financial assets held at amortised cost. The impairment loss is also calculated under the same method used for these financial assets.

vi) *Salvage and subrogation reimbursements*

Some insurance contracts permit the Group to sell (usually damaged) property acquired in settling a claim (for example, salvage). The Group may also have the right to pursue third parties for payment of some or all costs (for example, subrogation).

Estimates of salvage recoveries are included as an allowance in the measurement of the insurance liability for claims, and salvage property is recognised in other assets until the liability is settled. The allowance is the amount that can reasonably be recovered from the disposal of the property.

Subrogation reimbursements are also considered as an allowance in the measurement of the insurance liability for claims and are recognised in other assets until the liability is settled. The allowance is the amount of the assets that can be recovered from the action against the liable third party.

2.11 Guarantees and letters of credit

Guarantees and letters of credit comprise undertaking by the Group to pay bills of exchange drawn on customers. The Group expects most guarantees and letters of credit to be settled simultaneously with the reimbursement from the customers.

2.12 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, if it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligation may be small. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.13 Leased assets

For any new contracts entered, the Group considers whether a contract is, or contains a lease. A lease is defined as ‘a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration’. To apply this definition the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group;
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract;
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assesses whether it has the right to direct ‘how and for what purpose’ the asset is used throughout the period of use.

Measurement and recognition of leases as a lessee

At lease commencement date, the Group recognises a right-of-use asset and a lease liability on the consolidated statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group’s incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Group has elected to account for short-term leases and leases of low-value assets, if any, using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.13 Leased assets...continued

Measurement and recognition of leases as a lessee ...continued

The right-of-use assets and lease liabilities have been disclosed separately on the consolidated statement of financial position.

2.14 Revenue recognition

The Group determines whether to recognize revenue based on a 5-step process:

1. Identifying the contract with a customer;
2. Identifying the performance obligations;
3. Determining the transaction price;
4. Allocating the transaction price to the performance obligations; and
5. Recognising revenue when/as performance obligation(s) are satisfied.

The Group's revenue generating activities are described below.

i) *Interest income and expense*

Interest income and expense for all interest-bearing financial instruments are recognised within 'interest income' and 'interest expense' in the consolidated statement of income using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, estimates of cash flows that consider all contractual terms of the financial instrument are included (for example, repayment options), except future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts. Once a financial asset or a group of similar financial assets has been written down as a result of impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.14 Revenue recognition...continued

ii) Fees and commission income

Fees and commissions are generally recognised on an accrual basis when the service has been provided. Loan commitment fees for loans that are likely to be drawn down are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the loan. Loan syndication fees are recognised as revenue when the syndication has been completed and the Group has retained no part of the loan package for itself or has retained a part at the same effective interest rate as the other participants.

Commission and fees arising from negotiating, or participating in the negotiation of, a transaction for a third party – such as the arrangement of the acquisition of shares or other securities or the purchase or sale of business – are recognised on completion of the underlying transaction.

iii) Dividend income

Dividends are recognised in the consolidated statement of income when the right to receive payment is established.

iv) Premiums

Written premiums for non-life insurance relate to contracts beginning in the financial year and are stated gross of commissions payable to intermediaries and exclusive of taxes levied on premiums. Written premiums for life contracts are recognised when due from the policyholder. Unearned premiums are those proportions of the premium which relate to periods of risk after the reporting date.

v) Property sales

Revenue from property sales is recognised when title of the properties has passed to the buyer.

2.15 Operating expenses and fees expenses

Operating expenses and fees expenses are recognised in the consolidated statement of income upon utilisation of the services or as incurred.

2.16 Foreign currency translation

i) Functional and presentation currency

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the Group operates (the “functional currency”). The consolidated financial statements are presented in Eastern Caribbean Dollars, which is the Group’s functional and presentation currency. The values presented in the consolidated financial statements have been rounded to the nearest thousands unless otherwise stated.

ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of income. Foreign exchange gains and losses that relate to cash and cash equivalents are presented in the consolidated statement of income within ‘Other income’.

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.17 Equity, reserves and dividend payments

i) Issued share capital and share premium

Issued share capital represents the proceeds of shares that have been issued. Share premium includes any premiums received on the issue of share capital. Any transaction costs associated with the issuing of shares are deducted from share premium, net of any related income tax benefits.

ii) Dividends on ordinary shares

Dividends on ordinary shares are recognised in equity in the period in which they are paid by the Board of Directors and or approved by the Group's shareholders.

iii) Other components of equity

Other components of equity include the following:

- *Statutory reserve* – reserve fund as per the regulatory requirement;
- *Revaluation reserve* – represents gains and losses from the revaluation of land and buildings;
- *Fair value reserves – FVOCI* – represent unrealised gains and losses from changes in the fair value of the FVOCI investment securities; and
- *Other reserves* – comprises the defined benefit pension plan reserve, regulatory reserve for loan impairment, regulatory reserve for interest accrued on non-performing loans, insurance and claims equalisation reserve and general reserve.

iv) (Accumulated deficit)/retained earnings

(Accumulated deficit)/retained earnings include cumulative balance of net (loss)/income, dividend distributions, effect of changes in accounting policy and other capital adjustments.

2.18 Current and deferred income tax

Income tax payable on profits, based on applicable tax law in St. Kitts and Nevis is recognised as an expense in the period in which profits arise, except to the extent that it relates to items recognised directly in equity. In such cases, the tax is recognised in a deferred tax liability account. The tax expense for the period comprises current and deferred tax.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised, or deferred tax liability is settled.

The principal temporary differences arise from depreciation of property, plant and equipment and revaluation of certain financial assets. However, deferred tax is not accounted for if it arises from initial recognition of an asset or a liability in a transaction other than a business combination that at the time of the transaction affects neither accounting, nor taxable profit or loss. The rates enacted or substantively enacted at the reporting date are used to determine deferred income tax.

A deferred tax asset is recognised where it is probable that future taxable profit will be available against which the temporary differences can be utilised. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.18 Current and deferred income tax...continued

Deferred tax assets and liabilities are offset only when the Group has a right and intention to set off current tax assets and liabilities from the same taxation authority. Changes in deferred tax assets or liabilities are recognised as a component of tax charge or credit in profit or loss, except where they relate to items that are recognised in other comprehensive income (such as the revaluation of available-for-sale investment securities) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

The Group is subjected to the following tax rates:

(i) *Income tax rates*

The Group is subject to corporate income taxes at a rate of 33%. Refer to note 19 for details of the temporary COVID-19 stimulus package tax relief that was granted effective April 1, 2020 up to June 30, 2022.

(ii) *Premium tax rates*

Insurers are subject to tax on premium revenues generated in certain jurisdictions. The principal rate of premium tax is 5% for general insurance and nil for life insurance.

2.19 Deposit funds

Deposit administration contracts are issued by the Group to registered pension schemes for the deposit of pension plan assets with the Group.

Deposit administration liabilities are recognised initially at fair value and are subsequently stated at:

- amortised cost where the insurer is obligated to provide investment returns to the pension scheme in the form of interest; and
- fair value through income where the Group is obligated to provide investment returns to the pension scheme in direct proportion to the investment returns on specified blocks of assets.

Deposit administration contributions are recorded directly as liabilities. Withdrawals are deducted directly from the liability. The interest or investment return provided is recorded as an interest expense.

2.20 Investment property

Investment property is property held to earn rental and/or for capital appreciation, including property under construction for such purposes. Investment property is measured at cost, including transaction cost.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property is included in income in the period in which the property is derecognised.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

2 Significant accounting policies ...continued

2.21 Property inventory

Property inventory is measured at the lower of cost and net realizable value (NRV). The cost of property inventory comprises all costs incurred in bringing the properties to their present condition. NRV represents the estimated selling price less all estimated costs necessary to make the sale.

2.22 Business segments

Business segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

2.23 Events after the financial reporting date

Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting (non-adjusting events) are disclosed in the notes to the financial statements when material.

2.24 (Loss)/earnings per share

Basic (loss)/earnings per share are determined by dividing (loss)/profit by the weighted average number of ordinary shares outstanding during the period after giving retroactive effect to stock dividends declared, stock splits and reverse stock splits during the period, if any.

Diluted (loss)/earnings per share are computed by adjusting the weighted average number of ordinary shares outstanding to assume conversion of dilutive potential shares. Currently, the Group does not have dilutive potential shares outstanding, hence, the diluted (loss)/earnings per share is equal to the basic (loss)/earnings per share.

2.25 Comparatives

The classification of certain items in the consolidated financial statements has been changed from the prior period to achieve a clearer or more appropriate presentation. The comparative figures have been similarly formatted and reclassified in order to achieve comparability with the current period.

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks

The Group's activities expose it to a variety of financial and insurance risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the commercial Banking business and insurance, and the operational risks are an inevitable consequence of being in business. The Group's aim is therefore to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Group's financial performance.

The Group's risk management policies are designed to identify and analyse risks, to set appropriate levels and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Group regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practice.

Risk management is carried out by the Credit Division and Comptroller Division under policies approved by the Board of Directors. Management identifies and evaluates financial risks in close co-operation with the Group's operating units. The Board provides principles for overall risk management, as well as approved policies covering specific areas, such as foreign exchange, interest rate, insurance and credit risks. In addition, internal audit is responsible for the independent review of risk management and the control environment.

The most important types of financial and insurance risks are credit risk, liquidity risk, market risk, insurance risk (property, casual and life insurance risk) and other operational risk. Market risk includes foreign exchange risk, interest rate risk and other price risk.

3.1 Credit risk

The Group takes on exposure to credit risk, which is the risk that counterparties will cause financial losses for the Group by failing to discharge their obligations. Significant changes in the economy, or in the health of a particular industry segment that represents a concentration in the Group's portfolio, could result in losses that are different from those provided for at the reporting date. Management, therefore, carefully manages its exposure to such credit risks. Credit exposure arises principally in lending activities that lead to loans and advances, and investment activities that bring debt securities and other bills into the Group's asset portfolio.

There is also credit risk in off-balance sheet financial instruments, such as loan commitments. The credit risk management and control are centralised and reported to the Board of Directors.

The Group's exposure to credit risk is managed through regular analysis of the ability of its borrowers and potential borrowers to meet interest and capital repayment obligations. Credit risk is managed also in part by the taking of collateral and corporate and personal guarantees as securities on advances.

i) Loans and advances to customers

The prudential guidelines of the Group's regulators are included in the daily credit operational management of the Group. The operational measurements can be contrasted with impairment allowances required under IFRS 9, which are based on an expected credit loss model approach.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks ...continued

3.1 Credit risk ...continued

i) Loans and advances ...continued

The Group assesses the probability of default of individual borrowers using internal rating tools tailored to the various categories of the counterparty. These rating tools are fashioned from the guidelines of the commercial Group's regulators. Advances made by the Group are segmented into five rating classes that reflect the range of default probabilities for each rating class. The rating tools are kept under review and upgraded as necessary.

Group's rating	Description of the classifications
1	Pass
2	Special mention
3	Sub-standard
4	Doubtful
5	Loss

ii) Debt securities and other bills

For debt securities and other bills, external rating such as Standard & Poor's rating or their equivalents are used by the Group Treasury/Fund Managers for managing the credit risk exposures. The investments in those securities and bills are viewed as a way to gain a better credit quality mapping and maintain a readily available source to meet the funding requirement at the same time.

3.1.1 Risk limit control and mitigation policies

The Group manages, limits, and controls concentrations of credit risk wherever they are identified – in particular, to individual counterparties and groups, and to industries and countries.

The Group structures the levels of credit risks it undertakes by placing limits on the amount of risk acceptable in relation to one borrower, or groups of borrowers, and to geographical and industry segments. Such risks are monitored on a revolving basis and are subject to an annual or more frequent review, when considered necessary by the Board of Directors.

The exposure to any one borrower, including Groups and other financial institutions, is further restricted by sub-limits covering on-balance sheet and off-balance sheet exposures. Actual exposures against limits are monitored. Exposure to credit risk is also managed through regular analysis of the ability of borrowers and potential borrowers to meet interest and capital repayment obligations and by changing these lending limits where appropriate.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks ...continued

3.1 Credit risk ...continued

3.1.1 Risk limit control and mitigation policies ...continued

Other specific controls and mitigation measures are outlined below:

i) *Collateral*

The Group employs a range of policies and practices to mitigate credit risk. The most traditional of these is the taking of security for funds advanced, which is common practice. The Group implements guidelines on the acceptability of specific classes of collateral or risk mitigation. The principal collateral types for loans and advances are:

- Mortgages over residential properties;
- Charges over business assets such as premises, inventory and accounts receivable; and
- Charges over financial instruments such as debt securities and equities.

Longer-term finance and lending to corporate entities and individual credit facilities are generally secured. In addition, in order to minimize credit loss, the Group will seek additional collateral from the counterparty as soon as impairment indicators are noticed for the relevant individual loans and advances.

Collateral held as security for financial assets other than loans and advances is determined by the nature of the instrument. Debt securities, treasury and other eligible bills are generally unsecured.

ii) *Credit-related commitments*

The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees and standby letters of credit carry the same credit risk as loans. Documentary and commercial letters of credit (which are written undertakings by the Group on behalf of a customer authorising a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions) are collateralised by the underlying shipments of goods to which they relate and therefore carry less risk than a direct loan.

Commitments to extend credit represent unused portions of authorisations to extend credit in the form of loans and advances, guarantees or letters of credit. With respect to credit risk, the Group is potentially exposed to loss in an amount equal to the total unused commitments.

However, the likely amount of loss is less than the total unused commitments, as most commitments to extend credit are contingent upon customers maintaining specific credit standards. The Group monitors the term of maturity of credit commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments.

Loss allowances

The allowance for ECL is recognised in each reporting period and is impacted by a variety of factors, as described below:

- Transfers between stages due to financial assets experiencing significant movement in credit risk or becoming credit-impaired during the period;
- Additional allowances for new financial instruments recognised during the period, as well as releases for financial instruments de-recognised in the period;
- Impact on the measurement of ECL due to inputs used in the calculation including the movement between 12-month and lifetime ECL;
- Impacts on the measurement of ECL due to changes made to models and model assumptions; and
- Foreign exchange retranslations for assets denominated in foreign currencies.

According to the ECCB loan provisioning guidelines, the calculated allowance for loan impairment amounts to \$225,832 (2021: \$148,198). The loan loss provision calculated under IFRS 9 for the loans held by the Group amounted to \$80,807 (2021: \$72,593). When the ECCB loan loss provision is greater than the loan loss provision calculated under IFRS 9, the difference is set aside as a non-distributable reserve through equity. As of June 30, 2022, the loan loss provision calculated under IFRS 9 was less than the ECCB provision for the loans held by the Group. Therefore, a non-distributable reserve through equity was required at the reporting date and is included in other reserves in equity (note 21). The gross carrying value of impaired loans at the year-end was \$443,865 (2021: \$430,686).

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks ...continued

3.1 Credit risk ...continued

3.1.2 Impairment and provisioning ...continued

Economic variable assumptions ...continued

The scenario weightings assigned to each economic scenario were as follows:

Year	Base	Upside	Downside
June 30, 2022	80%	10%	10%
June 30, 2021	85%	5%	10%

Set out below are the changes to the ECL as at June 30, 2022 that would result from reasonably possible variations in the most significant assumptions affecting the ECL allowance for the financial assets in stages 1 to 2 with respect to the credit risk:

	ECL impact of:		
	Change in threshold	Increase in value \$	Decrease in value \$
Loss Given Default			
Debt securities – amortised cost	+/- 5%	20	(20)
Debt securities – FVOCI	+/- 5%	21	(21)
	ECL impact of:		
	Change in threshold	Increase in value \$	Decrease in value \$
Collateral haircut			
Loans	+/- 5%	792	(792)
Advances	+/- 5%	467	(467)

Purchased or originated credit-impaired (POCI) financial assets

Financial assets that are purchased or originated at a deep discount that reflects the incurred credit losses are considered to be POCI. This population includes the recognition of a new financial instrument following a renegotiation where concessions have been granted for economic or contractual reasons relating to the borrower's financial difficulty that otherwise would not have been considered. The amount of change-in-lifetime ECL is recognised in profit or loss until the POCI is derecognised, even if the lifetime ECL is less than the amount of ECL included in the estimated cash flows on initial recognition.

Loans and advances to customers renegotiated

Restructuring activities include extended payment arrangements, approved external management plans, modification and deferral of payments. Following restructuring, a previously overdue customer account is reset to a normal status and managed together with other similar accounts. Restructuring policies and practices are based on indicators or criteria which, in the judgment of management, indicate that payment will most likely continue. These policies are kept under continuous review. Restructuring is most commonly applied to term loans, in particular customer finance loans. Renegotiated loans during the year amounted to \$780 (2021: \$126).

3 Management of financial and insurance risks ...continued

3.1 Credit risk ...continued

3.1.3 Geographical concentrations of on-balance sheet and off-balance sheet with credit risk exposure

The Group operates three (3) business segments as follows:

- commercial and retail banking;
- insurance coverage; and
- Real estate and trust services.

These are predominantly localised to St. Kitts and Nevis. Commercial Banking activities, however, account for a significant portion of credit risk exposure.

The credit risk exposure is, therefore, spread geographically and over a diversity of personal and commercial customers.

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks ...continued

3.1.4 Concentration of risks of financial assets with credit exposure ...continued

The Government of St. Kitts and Nevis accounts for \$595,292 (2021: \$769,599) or 27% (2021: 35%) of total credit exposure, which represents a significant concentration of credit risk. The amounts due from the Government are included in the Public Sector category.

3.2 Market risk

The Group is exposed to market risk, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in interest rate and equity products, all of which are exposed to general and specific market movements and changes in the level of volatility of the market rates or prices such as interest rates, credit spreads, foreign exchange rates and equity prices.

The Group's exposure to market risks primarily arise from the interest rate management of the Group's retail and commercial Banking assets and liabilities, debt investment securities and equity risks arising from its FVOCI investments.

3.2.1 Price risk

The Group is exposed price risk in respect to its investment securities classified on the consolidated statement of financial position as FVTPL (note 10). If the quoted stock price for these securities increased or decreased by 10%, profit or loss and accumulated deficit would have changed by \$110,817 (2021: \$127,073).

The investments in listed securities classified on the consolidated statement of financial position as FVOCI are considered long-term strategic investments. The performance of these investments is continuously monitored.

3.2.2 Foreign exchange risk

The Group is exposed to foreign exchange risk through fluctuation in certain prevailing foreign exchange rates on its consolidated financial position and cash flows. The Board of Directors limits the level of exposure by currency and in total which are monitored daily. The Group's exposure to currency risk is minimal since most of its assets and liabilities in foreign currencies are held in United States dollars. The Group uses the mid-rate of exchange ruling on that day to convert all assets and liabilities in foreign currencies to Eastern Caribbean dollars (EC\$). The Group has set the mid-rate of exchange rate of the Eastern Caribbean (EC\$) to the United States dollar (US\$) at $EC\$2.7026 = US\1.00 since 1976.

The following table summarises the Group's exposure to foreign currency exchange rate risk at the reporting date. Included in the table are the Group's financial instruments at carrying amounts, categorised by currency.

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks ...continued

3.2 Market risk ...continued

3.2.3 Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Group takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may reduce losses in the event that unexpected movements arise. The Board of Directors limits the level of mismatch of interest rates repricing that may be undertaken.

The table below summarises the Group's exposure to interest rate risks. It includes the Group's financial instruments at carrying amounts, categorised by the earlier of contractual repricing or maturity dates:

Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks ...continued

3.2 Market risk ...continued

3.2.3 Interest rate risk ...continued

The Group's fair value market rate risk arises from debt securities classified as fair value through other comprehensive income and fair value through profit or loss. Had market interest rates at the reporting date been 100 basis points higher/lower with all variables held constant, equity for the year would have been \$475 (2021: \$411) lower/higher as a result of the decrease/increase in revaluation reserve for fair value through other comprehensive income debt securities and profit or loss for the year would have been 38 (2021: \$287) lower/higher due to an decrease/increase in fair value of debt securities measured at fair value through profit or loss.

Cash flow interest rate risk arises from loans and advances to customers at available rates. Had variable rates at the reporting date been 100 basis points higher/lower with all other variables held constant, profits for the year would have been 4,223 (2021: \$3,814) higher/lower, mainly as a result of higher/lower interest income from loans and advances (all loans and advances carry variable interest rates).

3.3 Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfil commitments to lend.

3.3.1 Liquidity risk management

The Group's liquidity is managed and monitored by the Comptroller Division with guidance, where necessary, from the Board of Directors. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. This includes:

- Daily monitoring of the Group's liquidity position to ensure that requirements can be met. These include the replenishment of funds as they mature and/or are borrowed by customers.
- Maintaining a portfolio of marketable assets that can easily be liquidated as protection against unforeseen liquidity problems. Additionally, the investment portfolio is diversified by geography, product, industry, and term.
- Daily monitoring of the statement of financial position liquidity ratios against internal and regulatory requirements.

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks ...continued

3.3 Liquidity risk ...continued

3.3.1 Liquidity risk management ...continued

- Managing the concentration and profile of debt maturities.
- Formalised arrangements with non-regional financial institutions to fund any liquidity needs that may arise.

3.3.2 Funding approach

Sources of liquidity are regularly reviewed to maintain a wide diversification of geography, currency, providers, products and terms. The Group holds a diversified portfolio of cash loans and investment securities to support payment obligations and contingent funding in a stressed market environment. The Group's assets held for managing liquidity risk include the following:

- Cash and balances with Central Bank;
- Deposits with other financial institutions;
- Loans and advances to customers
- Treasury bills;
- Originated debts;
- Investment securities;
- Financial asset;
- Acceptances, guarantees and letters of credit; and
- Other assets.

Credit card commitments	12,367	–	–	12,367
	20,609	1,622	40,435	62,666

3.4 Insurance risk

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is random and therefore unpredictable.

To limit the Group's exposure of potential loss on an insurance policy, the Group ceded certain levels of risk to a reinsurer. The Group selects reinsurers which have a well-established capability to meet their contractual obligations, and which generally have high credit ratings.

For its property risks, the Group uses quota share and excess of loss catastrophe reinsurance treaties to obtain reinsurance coverage. Catastrophe reinsurance is obtained for multiple claims arising from one event or occurring within a specified time period. However, treaty limits may apply and may expose the insurer to further claims exposure.

For a portfolio of insurance contracts where the theory of probability is applied to pricing and provisioning, the principal risk that the Group faces under its insurance contracts is that the actual claims and benefits payments exceed the carrying amount of the insurance liabilities. This could occur because of the frequency or severity of claims and if benefits payments are greater than estimated. Insurance events are random and the actual number and amount of claims and benefits will vary from year to year from the estimate.

Property	1,279	321	–	–	1,279	321
	9,393	7,097	–	–	9,393	7,097

i) Property insurance

Property insurance contracts are underwritten using the following main risk categories: fire, business interruption, weather damage and theft.

Frequency and severity of claims

For property insurance contracts, climatic changes give rise to more frequent and severe extreme weather events (for example, flooding, hurricanes, earthquake, etc.), increase the frequency and severity of claims and their consequences. The Group manages these risks through its underwriting strategy, adequate reinsurance arrangements and proactive claims handling.

The Group has the right to re-price the risk on renewal. It also has the ability to impose deductibles and reject fraudulent claims. These contracts are underwritten by reference to the commercial replacement value of the properties and contents insured and claim payment limits are always included to cap the amount payable on occurrence of the insured event. Cost of rebuilding properties, of replacement or indemnity for contents and time taken to restart operations for business interruption are the key factors that influence the level of claims under these policies. The greatest likelihood of significant losses on these contracts arises from fire, hurricane, and earthquake damage. The Group has reinsurance cover for such damage to limit losses to \$0.50 million (2021: \$0.50 million) in any one occurrence, per individual property risk.

3 Management of financial and insurance risks ...continued

3.4 Insurance risk ...continued

i) Property insurance ...continued

Sources of uncertainty in the estimation of future claim payments

Claims on property contracts are payable on a claims-occurrence basis. The Group is liable for all insured events that occurred during the term of the contract even if the loss is discovered after the end of the contract term. There are several variables that affect the amount and timing of cash flows from these contracts. The compensation paid on these contracts is the monetary awards granted for property damage caused by insured perils as stated in the contract of insurance.

The estimated costs of claims include direct expenses to be incurred in settling claims. The Group takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. Property claims are less sensitive as the shorter settlement period for these claims allows the Group to achieve a higher degree of certainty about the estimated cost of claims. However, given the uncertainty in establishing claims provisions, it is likely that the final outcome will prove to be different from the original liability established. The liability for these contracts comprises a provision for incurred but not reported (IBNR) and a provision for reported claims not yet paid (outstanding claims) at the reporting date.

ii) Casualty insurance

The Group's casualty insurance is motor, marine and liability insurance.

Frequency and severity of claims

The frequency and severity of claims can be affected by several factors. The most significant is the number of cases coming to Court that have been inactive or latent for a long period of time. Estimated inflation is also a significant factor due to the long period required to settle these cases.

The Group manages these risks through its underwriting strategy, adequate reinsurance arrangements and proactive claims handling.

Underwriting limits are in place to enforce appropriate risk selection criteria. For example, the Group has the right not to renew individual policies, it can impose deductibles and it has the right to reject the payment of a fraudulent claim. Furthermore, the Group's strategy limits the total exposure to the Group only by the use of reinsurance treaty arrangements. The reinsurance arrangements include excess of loss cover. The effect of such reinsurance arrangements is that the Group should not suffer total net insurance loss of more than \$0.30 million (2021: \$0.30 million) per risk for casualty insurance.

Sources of uncertainty in the estimation of future claim payments

Claims on casualty contracts are payable on a claims-occurrence basis. The Group is liable for all insured events that occurred during the term of the contract even if the loss is discovered after the end of the contract term. As a result, casualty and financial risk claims are settled over a longer period of time. There are several variables that affect the amount and timing of cash flows from these contracts. These mainly relate to the inherent risks of the business activities carried out by individual contract holders and the risk management procedures they adopted. The compensation paid on these contracts is the monetary awards granted for bodily injury suffered by employees (for employers' liability covers). Such awards are lump-sum payments that are calculated as the present value of the lost earnings and rehabilitation expenses that the injured party will incur because of the accident.

3 Management of financial and insurance risks ...continued

3.4 Insurance risk ...continued

ii) Casualty insurance ...continued

Sources of uncertainty in the estimation of future claim payments...continued

The estimated cost of claims includes direct expenses to be incurred in settling claims, net of the expected subrogation value and other recoveries. The Group takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. However, given the uncertainty in establishing claims provisions, it is likely that the final outcome will prove to be different from the original liability established. The liability for these contracts comprises a provision for incurred but not reported (IBNR) and a provision for reported claims not yet paid (outstanding claims) and a provision for unexpired risks at the reporting date. The Group's IBNR loss reserves are derived using paid loss development estimation method (triangular method). Each business classes' IBNR was calculated using claims data and loss history. The quantum of casualty claims is particularly sensitive to the level of Court awards and to the development of legal precedent on matters of contract and tort.

iii) Life insurance contracts

The Group is exposed to potential loss on its life insurance policies from the possibility that an insured event occurs. The Group has no reinsurance on its life insurance contracts. Hence, this risk is fully borne by the Group.

iv) Claims development

The Group employs loss (claims) development tables as a means of measuring actual claims compared with previous estimates. Claims are typically resolved within one year and are assessed on a case-by-case basis. The claims that tend to extend beyond one year are normally from the Accident line of business and to a lesser extent, the Motor line.

3.5 Fair values of financial assets and liabilities

Fair value amounts represent estimates of the consideration that would currently be agreed upon between knowledgeable willing parties who are under no compulsion to act and is best evidenced by a quoted market value if one exists. The following methods and assumptions were used to estimate the fair value of financial instruments.

The fair values of cash resources, other assets and liabilities, items in transit are assumed to approximate their carrying values due to their short-term nature. The fair values of off-balance sheet commitments are also assumed to approximate the amount disclosed in note 31. Fair values of financial assets and financial liabilities are also determined as follows:

- The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices; and
- The fair values of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with pricing models based on discounted cash flow analysis using prices from observable current market transactions.

i) Treasury bills

Treasury bills are assumed to approximate their carrying value due to their short-term nature.

ii) Deposits with other financial institutions

Deposits with other financial institutions include cash on operating accounts fixed deposits. These deposits are estimated to approximate their carrying values due to their short-term nature.

iii) Loans and advances to customers and originated debts

The estimated fair values of loans and advances to customers and originated debts represent the discounted amount of estimated future cash flow expected to be received. Expected cash flows are discounted at current market rate to determine fair value. Initial loan values are taken as fair value and where observed values are different, adjustments are made.

iv) Customers' deposits

The estimated fair value of deposits with no stated maturity, which includes non-interest-bearing deposits, is the amount repayable on demand. Deposits payable on a fixed date and are at rates which reflect market conditions, are assumed to have fair values which approximate carrying values.

v) Borrowings

The estimated fair value of 'borrowings' is the amount payable on demand.

vi) Acceptances, guarantees and letters of credit

Acceptances, guarantees and letters of credit are short-term in nature therefore fair value in this category is estimated to approximate carrying value.

3.5.1 Fair value measurements recognised in the consolidated statement of financial position

The following table provides an analysis of financial and non-financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observed. No transfers occurred between the levels of the securities during the year.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair values measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset and liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks...continued

3.5 Fair values of financial assets and liabilities ...continued

3.5.2 Fair value measurements of FVTPL and FVOCI investment securities

	Level 1	Level 2	Level 3	Total
As of June 30, 2022	\$	\$	\$	\$
Debt securities	45,844	–	5,496	51,340
Equities	1,057,696	17,270	44,335	1,119,301
	1,103,540	17,270	49,831	1,170,641
As of June 30, 2021				
Debt securities	36,673	–	35,647	72,320
Equities	1,225,382	17,976	35,574	1,278,932
	1,262,055	17,976	71,221	1,351,252

3.5.3 Fair value measurements of non-financial assets

The following table shows the level within the hierarchy of non-financial assets measured at fair value:

	Level 1	Level 2	Level 3	Total
As of June 30, 2022	\$	\$	\$	\$
Land and buildings	–	–	33,167	33,167
As of June 30, 2021				
Land and buildings	–	–	32,990	32,990

The fair value of the Group's land and buildings included in property, plant and equipment is estimated based on appraisals performed by an independent property valuer. The significant inputs and assumptions are developed in close consultation with management. The valuation processes and fair value changes are reviewed by the Board of Directors. The appraisal was carried out primarily using a market based approach that reflects the selling prices for similar properties and incorporates adjustments for factors specific to the properties in question, including square footage, location and current condition/use.

3.6 Capital management

The Group's objectives when managing capital, which is a broader concept than the 'equity' on the face of the statement of financial position, are:

- To comply with the capital requirement set by the Central Bank;
- To safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

Capital adequacy and the use of regulatory capital are monitored daily by the Group's management, employing techniques based on the guidelines developed by the Central Bank for supervisory purposes.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

3 Management of financial and insurance risks ...continued

3.6 Capital management ...continued

In addition, there are also capital requirements for the insurance business based on the Insurance Act No. 8 of 2009. According to the Act, the required paid-up capital is \$2,000 (2021: \$2,000). The Group has met this capital requirement for its insurance business.

The Central Bank requires each Group or Banking group to: (a) hold the minimum level of the regulatory capital of \$20,000 and (b) maintain a ratio of total regulatory capital to the risk-weighted asset (the 'Basel ratio') at or above the international agreed minimum of 8%.

The commercial Group's regulatory capital as managed by management is divided into two tiers:

- Tier 1 Capital: share capital, retained earnings and reserves created by appropriation of retained earnings.
- Tier 2 Capital: qualifying subordinated loan capital, collective impairment allowance and unrealised gains arising on the fair valuation of security instruments held as FVOCI.

The risk-weighted assets are measured by means of a hierarchy of five risk weights classified according to the nature of – and reflecting an estimate of credit, market and other risks associated with – each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for off-balance sheet exposure, with some adjustments to reflect the more contingent nature of the potential losses.

The table below summarises the composition of regulatory capital and the ratios of the Group for the two-year presentation. During those two years, the Group complied with all of the externally imposed capital requirements to which it must comply.

	2022	2021
	\$	\$
Tier 1 capital		
Issued share capital	141,750	135,000
Share premium	3,877	3,877

4 Critical accounting estimates and judgements

The Group's consolidated financial statements and its financial results are influenced by accounting policies, assumptions, estimates and management judgement, which necessarily have to be made in the course of preparation of the consolidated financial statements. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the actual results. The estimates that have a significant risk of causing material adjustments to the carrying amounts of assets within the next financial year are discussed below:

i) Fair value of financial instruments

Management applies valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using observable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the end of the reporting period.

The carrying values of the Group's financial assets at FVOCI and FVTPL and the amounts of fair value changes recognised on those assets are disclosed in Note 10.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

4 Critical accounting estimates and judgements ...continued

ii) *Testing of cash flow characteristics of financial assets and continuing evaluation of the business model*

In determining the classification of financial assets, the Group assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are SPPI on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk) does not meet the amortised cost criteria. In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, the Group assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows). If the resulting difference is significant, the SPPI criterion is not met. In view of this, the Group considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

In addition, IFRS 9 emphasizes that if more than an infrequent sale is made out of a portfolio of financial assets carried at amortised cost, an entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows. In making this judgment, the Group considers certain circumstances documented in its business model manual to assess that an increase in the frequency or value of sales of financial instruments in a particular period is not necessarily inconsistent with a held-to-collect business model if the Group can explain the reasons for those sales and why those sales do not reflect a change in the Group's objective for the business model.

iii) *Measurement of the expected credit loss allowance*

The measurement of the expected credit loss allowance for financial assets measured at amortised cost and FVOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g., the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is earlier detailed, which also sets out key sensitivities of the ECL to changes in these elements.

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

Detailed information about the judgements and estimates made by the Group in the above areas is set out before in note 3.1.2 "Impairment and provisioning".

4 Critical accounting estimates and judgements ...continued

iii) *Measurement of the expected credit loss allowance ...continued*

The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences in estimates and actual loss experienced. To the extent that the net present value of estimated cash flows differs by +/-5%, the provision for loans and advances to customers would be estimated as \$8,500 lower or \$8,888 higher (2021: \$8,505 lower or \$8,737 higher).

iv) *Estimate of insurance actuarial liabilities*

The Group issues whole life, limited payment life, endowment, term insurance, health and medical insurance policies. The estimation of the actuarial liabilities arising under these insurance contracts is dependent on estimates made by the Group. The estimate is subject to several sources of uncertainty that need to be considered in determining the future benefit payments.

- i. Mortality – Estimates are made as to the expected number of deaths for each of the years in which the Group is exposed to the risk. The Group bases these estimates on the UK A67/70 for assured lives. For contracts that insure the risk of longevity, appropriate but not excessively prudent allowance is made for expected mortality improvements. The estimated number of deaths determines the value of the benefit payments. An increase in the rate of mortality will lead to a larger number of claims, resulting in lower income. Were the mortality rate to differ by +/-10% from management's estimate, the actuarial liabilities would decrease by approximately \$6,049 or increase by approximately \$5,041.
- ii. Discount rate – Estimates are also made as to the discount rate use in the valuation of the insurance plans to determine the actuarial liabilities. A net rate of 3.4% (2021: 2.9%) was used as the discount rate in the valuation of insurance plans having a reversionary bonus, which is used to distribute profits to the policies. A net rate of 4.15% (2021: 3.65%) is used in the valuation for plans which do not participate in profits. Were the discount rate to differ by +/-50 basis points from management's estimate, the actuarial liabilities would decrease by approximately \$8,612 or increase by approximately \$13,626.

v) *Estimate of outstanding claims*

The estimation of the ultimate liability arising from claims incurred under property and casualty insurance contracts is subject to several sources of uncertainty that need to be considered in determining the amount that the insurer will ultimately pay for such claims. Provisions are made at the year-end for the estimated cost of claims incurred but not settled at the reporting date, including the cost of claims incurred but not yet reported to the Group. The estimated cost of claims includes expenses to be incurred in settling claims and a deduction for the expected value of salvage and other recoveries. The Group takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. These are determined based upon previous claims experience, knowledge of events and the terms and conditions of the relevant policies and on interpretation of circumstances. Particularly relevant is experience with similar cases and historical payment trends. The approach also includes the consideration of the development of loss payment trends, the levels of unpaid claims, legislative changes, judicial decisions, economic conditions, and changes in medical condition of claimants.

v) *Estimate of outstanding claims ...continued*

The estimation of the ultimate liability arising from claims incurred under property and casualty insurance contracts is subject to several sources of uncertainty that need to be considered in determining the amount that the insurer will ultimately pay for such claims. Provisions are made at the year-end for the estimated cost of claims incurred but not settled at the reporting date, including the cost of claims incurred but not yet reported to the Group. The estimated cost of claims includes expenses to be incurred in settling claims and a deduction for the expected value of salvage and other recoveries. The Group takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. These are determined based upon previous claims experience, knowledge of events and the terms and conditions of the relevant policies and on interpretation of circumstances. Particularly relevant is experience with similar cases and historical payment trends. The approach also includes the consideration of the development of loss payment trends, the levels of unpaid claims, legislative changes, judicial decisions, economic conditions and changes in medical condition of claimants.

However, given the uncertainty in establishing claims provisions, it is likely that the final outcome will prove to be different from the original liability established.

The estimation of claims incurred but not reported (“IBNR”) is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the Group, where more information about the claim event is generally available. Claims IBNR may often not be apparent to the insurer until many years after the event giving rise to the claims has happened.

If the IBNR rates were adjusted by +/-1%, the change in the statement of comprehensive income would be to decrease or increase reported profits by approximately +/- \$93.

Management engages loss adjusters and independent actuaries, either to assist in making or to confirm the estimate of claim liabilities. The ultimate liability arising from claims incurred under property and casualty insurance contracts may be mitigated by recovery arising from reinsurance contracts held.

vi) *Pension benefits*

The present value of the defined benefit pension obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost/(income) for pensions include the discount rate. Any changes in these assumptions will impact the carrying amount of pension obligations. The Group determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the Group considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension obligation. Additional information is disclosed in note 34.

4 Critical accounting estimates and judgements ...continued

vii) Estimation of current and deferred income taxes

Significant judgement is required in determining the provision for income taxes. There are some transactions and calculations for which the ultimate tax determination is uncertain. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made.

The extent to which deferred tax assets and tax credits can be recognised is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carry-forwards can be utilised. The estimated deferred tax asset and tax credit may vary from the actual amounts recovered in the future.

5 Cash and balances with Central Bank

	2022	2021
	\$	\$
Cash on hand	18,606	13,970
Balances with Central Bank other than mandatory deposits	<u>30,653</u>	<u>28,741</u>

Mandatory deposits with Central Bank	<u>169,758</u>	<u>171,355</u>
	<u>219,017</u>	<u>214,066</u>

The Group is required to maintain an Automated Clearing Housing (ACH) collateral amount with the Central Bank. This amount can be in the form of cash and/or ECCU member Government securities issued on the Regional Government Securities Market. The Group's collateral amount held with the Central Bank at June 30, 2022 amounted to \$11,528 (2021: \$10,022).

Commercial banks are also required under Section 57 of the Banking Act, 2015 to maintain a reserve deposit with the Central Bank equivalent to 6 percent of their total customer deposits. This reserve deposit is not available to finance the Group's day-to-day operations.

Cash and balances with Central Bank, which include mandatory and ACH collateral deposits are not interest bearing.

Current	79,768	14,202
Non-current	74,443	96,110
	154,211	110,312

Originated debts are bonds held with sovereigns in the Eastern Caribbean Currency Union (ECCU), certificates of participation in the Government of Antigua and Barbuda, bonds in a regional financial institution and international financial institutions as well as short term commercial paper in an international financial institution.

i) *Local and regional sovereign bonds*

The Group has certain investment securities which comprise of fixed rate bonds held with sovereigns in the ECCU. Bonds yield interest at rates of 1.50% - 6.75% (2021: 1.5% – 6.75%). Bonds have terms ranging from 3 months to 35 years (2021: 2 – 45 years) and will mature between September 10, 2022 and April 18, 2057 (2021: July 17, 2021 and April 18, 2057) and pay semi-annual coupon interest payments until maturity.

ii) *Certificates of participation in the Government of Antigua and Barbuda 7-Year Long Term Note*

The Group placed funds on deposit with ABI Group Limited (ABIB). These deposits were placed with ABIB, which at the time was facing serious liquidity challenges, at the request of the ECCB, having regard to the contagion effect on the ECCU and the Group that would result if ABIB were unable to mitigate its liquidity risks.

By April 28, 2010, the Group had placed total deposits of \$32,000 with ABIB. On May 7, 2010, these deposits, along with an additional \$6,710 were used to purchase from ABIB a series of certificates of participation (COPs) in the cash flows from a Long-Term Note issued by the Government of Antigua and Barbuda (GoAB), which had been securitised by ABIB.

(expressed in thousands of Eastern Caribbean dollars)

9 Originated debts ...continued

ii) Certificates of participation in the Government of Antigua and Barbuda 7-Year Long Term Note ...continued

On July 22, 2011, ECCB was directed by the Monetary Council to exercise the special emergency powers conferred on it by Part IIA, Article 5B of the ECCB Agreement Act 1983 to assume control of ABIB. During the years of ECCB's control of ABIB, the Group received an annual confirmation from ECCB of the total outstanding amounts of the COPs, with the stated objective of stabilising the operations of ABIB so that all obligations would be settled in the normal course of business. ABIB was placed in receivership on November 27, 2015 by ECCB.

On July 11, 2019, the Group wrote to Caribbean Financial Services Corporation informing them that the Group intends to exercise its rights under clause 9.2 of the Trust Deed to bring proceedings against the Government of Antigua and Barbuda and/or any holder of the proceeds of the Long-Term Note.

As at June 30, 2021, the Group's interest under the COP's amounted to \$36,243. All of the COP's have now matured and are past due.

As of June 30, 2022, the Group's Financial Statements no longer show an interest under COPs. A decision was made and approved by the new Board of Directors to have the COPs which amounted to \$36,242,620 at the start of the financial year 2021/22, written-off at the end of the financial year ended June 30, 2022.

The Group will continue to pursue its entitlement under the COPs through ongoing legal action to recover its interest. The Group's external legal counsel team was buttressed by the retention of legal counsel out of the United Kingdom, who the Group was advised is an expert in this particular area of the law.

The Group continues to rely on the expert legal advice received thus far as it pertains to the prospects of enforcing recovery and anticipated settlement.

iii) Local corporate bond

The Group holds a bond with Eastern Caribbean Home Mortgage Bank which is denominated in Eastern Caribbean Dollars and which yielded an interest rate of 2.7% (2021: 2.7%). The bond matured on May 4, 2022 and no reinvestment was made in this bond at the end of the financial year

iv) International corporate bond

The Group held various bonds with Wells Fargo which are denominated in United States Dollars and which yielded an average interest rate of 1.90%. The bonds have maturity dates ranging from September 29, 2022 – June 9, 2025.

i) *FVTPL – quoted debt and equity instruments*

The Group maintains certain debt and equity instruments trading in regional and international markets denominated in USD and XCD currency.

ii) *FVOCI – equity instruments*

The Group maintains certain equity instruments which are quoted and unquoted. The instruments are denominated in USD and XCD currency. The Group has made the irrevocable election to classify these securities as FVOCI – equity instruments as management has not obtained these instruments for the purposes of speculation or active trading.

For unquoted securities, the Group undertakes a fair value assessment at each reporting date to assess the gains or losses attributable to such assets. During the financial year, net fair value losses related to financial assets in equity securities which are not trading in an active market amounted to \$nil (2021: gains \$438).

iii) *FVOCI – debt securities – quoted corporate and sovereign bonds*

The Group has certain investment securities which comprise of quoted corporate and sovereign fixed rate bonds trading. Bonds have coupon rates of 0.125% to 7.375% (2021: 0.88% to 9.00%); whilst, the effective interest rate for these bonds ranges from 0.5% to 11.85% (2021: 2.00% to 13.00%). Bonds have a maximum term of ten (10) years and will mature between July 2021 and May 2032 and pay semi-annual coupon interest payments until maturity. As at June 30, 2022, the fair values of these amounted to \$47,526 (2021: \$43,623).

13 Property and equipment ...continued

In 2020, the Group's land and buildings were revalued based on the appraisal made by an independent firm of appraisers. Valuations were made on the basis of comparative recent market transactions on arm's length terms. The revaluation surplus was credited to 'revaluation reserve' in shareholders' equity.

The following is the historical cost carrying amount of land and buildings carried at revalued amounts.

	Land \$	Buildings \$	Total \$

15 Leases

The Group leases properties and equipment for its operations with lease terms ranging from 3 to 10 years. The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets.

Information about leases for which the Group is a lessee is presented below.

i) *Amounts recognised in the consolidated statement of financial position:*

Right-of-use assets	\$

Interest expense on lease liabilities	50	55
	913	793

Each lease generally imposes a restriction that, unless there is a contractual right for the Group to sublease the asset to another party, the right-of-use asset can only be used by the Group. Each lease is either non-cancellable or may only be cancelled by incurring a substantive termination fee. The Group is prohibited from selling or pledging the underlying leased asset as security. Further, the Group must keep the leased properties in a good state of repair and return the leased properties in its original condition at the end of the lease. Also, the Group must insure items of property and equipment and incur maintenance fees on such items in accordance with the lease contracts.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements

(expressed in thousands of Eastern Caribbean dollars)

17 Customers' deposits ...continued

Customers' deposits represent all types of deposit accounts held by the Group on behalf of customers. The deposits include demand deposit accounts, call accounts, savings accounts and fixed deposits. All customers' deposits were current for both years.

The Group pays interest on all categories of customers' deposits except demand deposits. At the reporting date, total interest expense on customers' deposit accounts for the year amounted to \$50,591 (2021: \$48,466). The average effective rate of interest paid on customers' deposits was 1.85% (2021: 1.94%).

18 Accumulated provisions, creditors and accruals

	2022 \$	2021 \$
Actuarial liabilities	101,328	104,438
Suspense liabilities	66,807	34,559
Deposit pension funds	60,381	57,296
Insurance contract liabilities	29,778	25,363
Other payables	29,175	33,104
Unpaid drafts on other banks	3,338	3,132
Managers' cheques and banker's payments	1,799	2,586
	292,606	260,478
Current	232,225	203,182
Non-current	60,381	57,296
	292,606	260,478

Actuarial liabilities

Actuarial liabilities comprise the reserves maintained for the Group's individual life insurance business. The actuarial liabilities are calculated using the Net Level Premium (NLP) reserve method. This reserve method is a net premium reserve method that does not use lapse rates or expenses.

	2022 \$	2021 \$
Whole life plans	86,486	89,573
Endowment plans	8,816	8,627
Limited payment life plans	4,812	4,627
Other plans	1,214	1,611
Total actuarial liabilities	101,328	104,438

The actuarial liabilities are largely backed by short-term deposits, cash and treasury bills. The valuation rate for insurance plans is based on an expected ultimate short-term (one year or less) reinvestment rate assumption. Non-participating plans use an ultimate rate of 4.15% (2021: 3.65%). A spread of 0.75% is deducted for the plans with reversionary bonuses in support of bonus payments for a net rate of 3.4% (2021: 2.9%).

Deposit pension funds

	2022	2021
	\$	\$
Contributions	2,715	2,498
Interest	2,237	2,136
	4,952	4,634
<i>Less expenses</i>		
Group pension benefits	145	1,113
Management expenses	1,722	162
	1,867	1,275
Surplus for the year	3,085	3,359
Funds at beginning of year	57,296	53,937
Funds at end of year	60,381	57,296

The deposit pension funds represent pension funds which the Group manages for its employees and certain other entities. The funds provide a guaranteed minimum rate of 4% (2021: 4%). The fund balance represents the amount standing on account of the contributors to the fund and those liabilities are supported by term deposits and treasury bills.

Insurance contract liabilities

The insurance contract liabilities primarily relate to the non-life insurance business and are comprised of the following:

	2022	2021
	\$	\$
Life		
Outstanding claims	1,407	897
Non-life		
Unexpired risks	13,839	13,503

(expressed in thousands of Eastern Caribbean dollars)

19 Taxation

In 2020, as part of the COVID-19 stimulus package, the Government of St. Kitts and Nevis granted a reduction in the corporate income tax rate from 33% to 25% on the assessable income for businesses that retain at least 75% of their employees. This temporary reduction resulted in an effective tax rate of 25% (2021: 25%) for the year. The exemption period expired on June 30, 2022.

	2022 \$	2021 \$
Net (loss)/income before tax	<u>(304,789)</u>	242,866
Tax (credit)/expense at effective tax rate of 25% (2021: 25%)	(76,197)	60,717
Non-deductible expenses and other permanent differences	8,465	8,316
Tax effect of change in income tax rate	–	(414)
Deferred tax movement not recorded	73,080	119
Income not subject to tax	(4,803)	(4,560)
Prior year's deferred income tax	(276)	(199)
Deferred tax not recognised on tax losses carried forward	–	8
Tax credit from discounted interest on government loans	<u>(8,845)</u>	(9,489)
Income tax (credit)/expense	<u>(8,576)</u>	54,498
Represented as follows:		
Current year's income tax (credit)/expense	(94)	64,314
Prior year income tax expense overstated	(2)	–
Tax credit from discounted interest on government loans	<u>(8,845)</u>	(9,489)
	<u>(8,941)</u>	54,825
Deferred tax expense/(credit)	<u>365</u>	(327)
Income tax (credit)/expense	<u>(8,576)</u>	54,498

During the year, the Group incurred realised losses of \$9,123 (2021: \$19,847) on FVOCI equity securities that were transferred directly to retained earnings. The tax benefit of \$2,281 (2021: \$4,961) associated with these losses was also recognised directly in retained earnings. The tax benefit recognised directly in retained earnings during the year of \$2,281 represented a deferred tax benefit. Accordingly, the current year's income tax (credit)/expense was \$94 (2021: \$59,353), represented by the current year's income tax credit of \$94 (2021: expense \$64,314) and the current tax benefit in retained earnings of \$nil (2021: \$4,961).

		2,685	(648)	301,887	303,924

Deferred tax asset

At the year end, the Group had a deferred tax asset of \$98,086 (2021: \$890) which was not recognised in the consolidated financial statements due to the uncertainty of its recovery.

Income tax recoverable

Included in the consolidated statement of financial position is an amount of \$21,135 (2021: \$1,030) that relates to income tax credits/advance tax payments due from the IRD in respect of tax assessments that were finalised up to the year ended June 30, 2020 and the change in the Group's estimate of the current income tax expense based on a settlement agreement with the IRD. The amount may be applied against any future taxes payable by the Group, with certain agreed restrictions.

Insurance and claims equalisation reserves	43,891	41,829
Defined benefit pension plan reserve	3,512	5,065
	288,909	222,400

Included in other reserves are the following individual reserves:

General reserve

General reserve is used from time to time to transfer profits from retained earnings at the discretion of the Board of Directors. There is no policy of regular transfer.

Insurance and claims equalisation reserves

The insurance reserve is a discretionary reserve for the health and public liability insurance business. The underlying assets are included in the Group's cash balances which form part of 'Cash and cash equivalents'.

Claims equalisation reserve represents cumulative amounts appropriated from retained earnings based on the discretion of the Board of Directors as part of the Insurance Company's risk management strategies to mitigate against catastrophic events. Annually, the claims equalisation reserve is assessed, and transfers made as considered necessary by the Board of Directors. This reserve is in addition to the catastrophe reinsurance cover.

Regulatory reserve for loan impairment

Regulatory reserve represents cumulative amounts appropriated from retained earnings based on the prudential guidelines of the ECCB. When the ECCB loan provision is greater than the loan provision calculated under IFRS 9, the difference is set aside in a reserve in equity.

21 Reserves ...continued

iv) Other reserves ...continued

Reserve for interest accrued on non-performing loans

This reserve is created to set aside interest accrued on non-performing loans where certain conditions are met in accordance with IFRS 9. The prudential guidelines of the ECCB do not allow for the accrual of such interest. As a result, the interest is set aside in a reserve and it is not available for distribution to shareholders until received.

Defined benefit pension plan reserve

This reserve is used to record the actuarial re-measurement of the defined benefit pension asset in other comprehensive income.

29 Dividends

The consolidated financial statements reflect total dividends of \$41,850 paid during the year. This amount represents a cash dividend payment of \$0.05 per share (\$6,750) paid August 24, 2021 and a 5% stock dividend (\$6,750) for the financial year ended June 30, 2022 and a cash dividend payment of \$0.20 per share (\$28,350) for the financial year ended June 30, 2021 paid on December 16, 2021.

30 Related parties balances and transactions

A related party relationship exists when one party has the ability to control directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationships also exist between or among entities under common control, with the reporting enterprise and its key management personnel, directors and shareholders.

Government of St. Kitts and Nevis

The Government of St. Kitts and Nevis holds 51% of the Group's issued share capital. The remaining 49% of the issued share capital is held by individuals and other institutions (over 5,500 shareholders). The Government is a customer of the Group and, as such, all transactions executed by the Group on behalf of the government are performed on strict commercial banking terms at existing market rates.

As at June 30, 2022, directors held total shares in the Group of 147 (2021: 140) and key management held total shares in the Group of 16 (2021: 31).

Loans advanced to directors and key management during the year are repayable on a monthly basis at a weighted average effective interest rate of 6.09% (2021: 6.20%). Secured loans are collateralised by cash and mortgages over properties.

A provision of 18,630 (2021: \$18,630) has been recognised in respect to advances made to related parties (associated company).

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
 June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

32 Financial asset ...continued

The financial asset of \$360,794 (2021: \$566,505) along with the provision for expected credit losses of \$2,398 (2021: \$3,112) represents the Group's right to that amount of cash flows from the sale of certain lands pursuant to a Shareholder's Agreement (Agreement) dated April 18, 2012 and September 4, 2014 between the Group and its majority shareholder, the Government of St. Kitts & Nevis ("GOSKN"), and the Nevis Island Administration ("NIA"), respectively. Under the terms of the Agreement, the secured debt obligations owed to the Group by the GOSKN, NIA and certain public corporations would be irrevocably released and discharged by the Group in exchange for the transfer of certain land assets to the Group. Further, the unsecured debt obligations owed to the Group by GOSKN, NIA and certain public corporations would be irrevocably released and discharged by the Group in exchange for the transfer of certain unencumbered land assets to a specially created entity, Special Land Sales Company (St. Kitts) Limited ("SLSC") and the allocation of certain shares in SLSC to the Group. SLSC was incorporated for the purpose of selling land assets in order to fulfill the terms of the Agreement of the contracting parties. Other lands would be transferred to the SLSC for sale, if necessary, in order to satisfy the agreement of the contracting parties.

By way of supplemental agreements, the effective date of the Agreement was amended to July 1, 2013. Accordingly, the first step in the 'Land for Debt' swap took place on July 1, 2013 in the amount of \$565,070, which is the value of the 1,200 acres of land in the first tranche based on an independent valuation. The second and third tranches were completed during 2015 and the amounts swapped amounted to \$230,951 which is the value of 735 acres of land.

Based on the terms of the Agreement:

1. On the effective date, SLSC shall use all appropriate commercial efforts to sell the secured land assets that were vested to the Group at the best price reasonably possible and as soon as reasonably practicable.
2. Commencing from the effective date of the Agreement, July 1, 2013, the Group is entitled to receive interest payments at a rate of 3.5% per annum on the face value of the eligible secured debt that was exchanged for the secured land assets. The amount is to be paid by the GOSKN annually from the effective date. Subsequently, the interest rate was reduced to 2.75% for the period July 1, 2017 to June 30, 2019 and 1.75% for the period July 1, 2019 to July 30, 2020. At year end the interest remained at 1.75%.
3. Distribution of sale proceeds of the Group land assets shall be applied as follows:
 - a. First towards the payment of selling and operational costs of SLSC;
 - b. Secondly to the Group until the Group has received the face amount of the eligible secured debt immediately prior to the effective date and the interest payments, less amounts paid to the Group;
 - c. Thirdly to the Group in exchange for the redemption of its relative interest in SLSC which was allotted for the release of eligible unsecured debt that was owed to the Group prior to the effective date; and
 - d. Fourthly to the Government of St. Kitts and Nevis.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
Notes to Consolidated Financial Statements
 June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

32 Financial asset ...continued

For the year ended June 30, 2022, the Group's consolidated statement of income includes interest income amounting to \$8,576 (2021: \$10,071) (see note 22). Further, as of June 30, 2021, interest receivable of \$10,909 (2021: \$11,590) was pending from the GOSKN. During the year \$9,258 (2021: \$10,436) of cumulative interest payments were received from the GOSKN. The decrease in the provision for expected credit losses amounted to \$714 (2021: increase \$1,539) during the year.

Based on the terms of the Agreement, all of the risks and rewards of ownership of the secured land assets have not been transferred to the Group. The Group is only entitled to receive cash flows from the sales of said lands up to the face value of the eligible secured debt that was exchanged and any interest payments as noted above. Additionally, if the lands are sold for less than the value that was transferred, the GOSKN and NIA is obligated to transfer additional lands to make up for the shortfall. The Group's interest in the land assets is not subject to variation of returns as there is no risk of loss for the Group, and also the Group does not stand to benefit should the lands be sold for more than the value. Therefore, the Group has not classified the amounts received in exchange for the loans as inventory, but as a financial asset based on its rights to the cash flows from the sales of the land assets under the Agreement.

The Group has not included in these consolidated financial statements any investment in SLSC. Further, the Group has not invested any funds in SLSC.

37 Business segments

As at June 30, 2022, the operating segments of the Group were as follows:

1. Commercial and retail banking incorporating deposit accounts, loans and advances, investment brokerage services and debit, prepaid and gift cards;
2. Insurance including coverage of life assurance, non-life assurance and pension schemes; and
3. Real estate, property management and the provision of trustee services.

Transactions between the business segments are carried out on normal commercial terms and conditions. These operating segments are monitored by the Group's chief operating decision maker and strategic decisions are made on the basis of adjusted segment and rating results.

Segment information is based on internal reporting about the results of operating segments, such as revenue, expenses, profits or losses, assets, liabilities and other information on operations that are regularly reviewed by the Boards of Directors of the various Group companies.

Notes to Consolidated Financial Statements

June 30, 2022

(expressed in thousands of Eastern Caribbean dollars)

38 Impact of Covid-19 pandemic

Since December 31, 2019, the spread of a novel strain of coronavirus, COVID-19 has severely impacted many local economies around the globe. In many countries, businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown.

The Government of St. Kitts and Nevis and the ECCB have responded with monetary and fiscal interventions to stabilise economic conditions in the Federation. This is including a loan repayment deferral programme (moratorium) in conjunction with the Eastern Caribbean Currency Union Bankers Association. Accordingly, as of June 30, 2021, the Group had a total of \$169,657 of loans that were included in the moratorium programme. The moratoria were issued for a period of 3 months and then extended by 4 months with further extensions to September 2021 in light of changes in the economic outlook brought about by the pandemic. The moratorium was extended for another 6 months to March 31, 2022 to allow additional time to restructure affected facilities. A total of \$241,796 loans were restructured under the moratorium by the Group.

As at June 30, 2022, there were no loans included in the Group's moratorium programme.

Independent Auditor's Report

To the Shareholders of St. Kitts-Nevis-Anguilla National Bank Limited

Opinion

The summary separate financial statements, which comprise the summary separate statement of financial position as of June 30, 2022, the summary separate statement of comprehensive income, summary separate statement of changes in shareholders' equity and summary separate statement of cash flows for the year then ended, and the related note, are derived from the audited separate financial statements of **St. Kitts-Nevis-Anguilla National Bank Limited** (the "Bank") for the year ended June 30, 2022. We expressed an unqualified opinion in our report dated December 1, 2022.

In our opinion, the accompanying summary separate financial statements are consistent, in all material respects, with the audited separate financial statements, on the basis described in Note 1.

Summary Separate Financial Statements

The summary separate financial statements do not contain all the disclosures required by International Financial Reporting Standards. Reading the summary separate financial statements and the auditor's report thereon, therefore, is not a substitute for reading the audited separate financial statements and the auditor's report thereon.

The Audited Separate Financial Statements and Our Report Thereon

We expressed an unqualified audit opinion on the audited separate financial statements in our report dated December 1, 2022. Our report also includes the communication of key audit matters. Key audit matters are those matters that in our professional judgement, were of most significance in our audit of the separate financial statements of the current period.

Management's Responsibility for the Summary Separate Financial Statements

Management is responsible for the preparation of the summary separate financial statements on the basis described in Note 1.

Auditor's Responsibility

Our responsibility is to express an opinion on whether the summary separate financial statements are consistent, in all material respects, with the audited separate financial statements based on our procedures, which were conducted in accordance with International Standard on Auditing (ISA) 810 (Revised), *Engagements to Report on Summary Financial Statements*.
